XENIANS SHIVER ON COLDEST NIGHT OF WINTER AS SUB-ZERO WEATHER PREVAILS

Temperature reached the lowest point this winter and probably during the last several winters in Greene County late Thursday night and early Friday.

F. A. Klein, W. Second St., reported the lowest temperature, his thermometer showing eighteen degrees below zero at midnight Thursday and a slow rise Friday morning. According to Mr. Klein's record it was fourteen degrees below at 5 o'clock Friday, eight below at 7 and at 8 o'clock it was still one below zero.

Goes Station lost the honor of being the coldest point in the vicinity, according to M. E. Shoemaker, grocer at Goes, whose thermometer registered only eight degrees below zero at 5:30 Friday and stood at zero at 9 o'clock. He had no record for Thursday night.

Thermometer at the Lampert Floral Co., Springfield Pike, registered the coldest point between 1 and 2 o'clock Friday morning. At 12 o'clock the record showed twelve below and thirteen below between 1 and 2 o'clock, Friday. Temperatures began to rise at 3 o'clock and the Lampert thermometer registered 6 below at 6 o'clock.

RELIEF PROMISED FROM COLD WAVE

COLD WAVE HITS EAST AS RELIEF REACHES MID-WEST

More Than 2,000 New Yorkers Driven Into Chill Blasts By Early Morning Fires—Near Zero Weather Recorded—Chicago Feels Relief

New York, Jan. 29—Extreme cold and fire combined to harass New York today.

More than 2,000 persons were driven from their homes during the early morning hours by fires in numerous parts of the city. They were forced to flee into a wintry morning, with a gusty wind blowing and the thermometer on the streets hovering around zero.

Police and fire stations were overtaxed, caring for the refugees and extinguishing the fires. Property loss was in no case heavy.

New York, Jan. 29—Whipped downward by an eighty mile gale, temperatures here today stood at one above zero in the streets with prospects of going even lower.

The slump in the mercury started late yesterday when the wind at one time reached a velocity of 84 miles an hour. Pedestrians who were not blown from their feet walked warily along the streets to work as huge electric signs creaked overhead.

Shipying was tied up in the harbor and incoming vessels were delayed by storms at sea. The weather bureau gave little hope for warmer weather in its forecast today.

Chicago, Jan. 29—Relief came to the middlewest today from the sub-zero weather of the past two days.

Thermometers in this forecast area were around zero and above today, compared with a low of thirty degrees below zero early yesterday.

Three deaths were ascribed to the cold.

ROCKEFELLER IN BETTER HEALTH THAN EVER

Cleveland, O., Jan. 29.—Despite his eighty-seven years and stories to the effect that he is breaking fast, John D. Rockefeller is in better health and physical condition now than he was fifteen years ago, Dr. Hamilton P. Bigger, the ex-Ohio millionaire's personal physician for forty-five years, told the United Press today.

"When I left him at Grand Beach, Fla., his condition was really better than that of any other man of his age that I have known, declared Dr. Bigger. "I expect to join him next month, not in an official capacity but as a guest."

Rockefeller does not come to Cleveland these days, Dr. Bigger explained because many of his most tender associations and cherished memories were destroyed with his old home at Forest Hills which burned down ten years ago.

Dr. Bigger revealed some of the aged Croesus' secret charities, saying right here in Cleveland, Rockefeller spends more than $100,000 a year to help out old friends and acquaintances who are in need. The public never knows who these men are and has no idea of the magnitude of Rockefeller's charities.

Dr. Bigger has traveled more than 250,000 miles with the Rockefeller family, accompanying them to France when the youngest daughter, Mrs. Charles Strong died in 1906.

A popular legend about Rockefeller was dispelled by Dr. Bigger during the interview. Rockefeller, he explained had a breakdown in 1890. By concentration he cured himself and can now eat any food he craves.

"Most people have the idea that he can only eat light foods, that's all rot," he concluded.

Bradfute admitted a wide difference of opinion existed among the farmers' plans for solution of their problems.

The president does not approve of his plan. "As yet there has been no satisfactory solution proposed in bills before congress," he said.

Taking issue with Henry Ford, who recently announced himself as a believer in reincarnation, Burbank declares that science disproves popular theories of reincarnation and life after death.

CHILD KILLED WHEN AUTO STRIKES SLED

Dayton, Ohio, Jan. 29—Nora Holman, 7, was killed, and Earl Rice, 15, her cousin, both of R. R. 13, Covington Pike, was seriously injured when a sled towed by a bicycle propelled by her cousin was struck by an automobile driven by Paul Chapman, 22, R. TEMPERATURE RISE AND SNOW FLURRIES FOLLOW COLD WAVE

Sub-Zero Weather Brings Suffering All Over Ohio

(By United Press)

Columbus, Jan. 29.—The bitter cold wave that has enveloped the state for two days will give way to rising temperatures and snow flurries this afternoon, the weather bureau announced this morning. DAYTON JURIST ARRESTED ON LIQUOR CHARGE IN CINCINNATI HOTEL ROOM BY DRY LEAGUE AGENTS

Judge Robert D. Patterson Found In Bath Tub Officers Say

(By United Press)

Cincinnati, O., Jan. 29.—Liberated under $1,000 bail on charges of violating the prohibition laws, Common Pleas Judge Robert Patterson of Montgomery County, prepared for his arraignment today.

Judge Patterson and a Dayton attorney whose name was not disclosed, were arrested in a raid on a hotel room last night, led by T. B. Jarvis, superintendent of the Cincinnati Anti-Saloon League and three other agents.

Jarvis will testify when Judge Patterson is arraigned in the North Bend dry court, probably this afternoon.

Judge Patterson was lying in a bath tub when the agents entered his room.

"He threw his arms around a dry officer's neck and shouted: "I wish I had some one to love me,' Jarvis declared.

"The Dayton attorney," Jarvis asserted, "was lying, half clothed on a bed. We found several bottles of liquor."

Judge Patterson emphatically denied the charge and intimated he may file libel proceedings, charging Jarvis defamed him.

Patterson is here attending the meeting of the Ohio State Bar Association.

Jarvis said he had been informed liquor would be found in Judge Patterson's room.

Judge Patterson's friends asserted the Anti-Saloon League had trailed Patterson and instigated his arrest because he had reversed several liquor convictions in village courts near Dayton. Judge Patterson also expressed this as a motive for his arrest.

Jarvis denied this assertion, asserting the league "shows no favoritism where violations of the liquor law were involved."

Jarvis said seven half pints of liquor were found in Judge Patterson's room.

HIGH SCHOOL BURNS WITH $100,000 LOSS DURING COLD SPELL

Four Hundred Pupils Out of School In North Baltimore

(By United Press)

North Baltimore, O., Jan. 29.—Fire of undetermined origin destroyed the $100,000 North Baltimore High School during the night, leaving 400 students without a place to attend school.

Steps to rebuild the structure will be taken immediately, school board officials announced today.

Apparently the blaze had been smouldering for several hours before it broke out at 4 o'clock this morning. A general alarm was sounded but due to low water pressure and the intense cold which froze the water in the nozzles, firemen were powerless to combat the blaze.

In addition to the building the school library valued at $25,000 was consumed.

The building was a twelve room structure.

Powerless to control the blaze firemen concentrated on saving nearby buildings threatened by the flames.

E. E. Leidy, superintendent of the school, said origin of the fire was unknown.

The fire started in the furnace room Soon the building was a roaring inferno. Practically nothing of value was salvaged.

Emergency accommodations will be provided for the students and teachers Leidy said.

FAMILIES ABANDON HOUSES WHEN BLAZE FOLLOWS COLD WAVE

Firemen Effect Heroic Rescues During Two Conflagrations

Steubenville, O., Jan. 29—Disastrous fire in the residential section of Weirton, W. Va., across the river from here early today consumed five homes before it was brought under control.

Fourteen families were forced into the bitter cold. Several heroic rescues were effected. The blaze originated in the home of James Wilson when a clinker fell from an open grate, igniting a rug. Unable to cope with the flames, the Weirton fire department summoned Steubenville apparatus. An hour after the fire started, another blaze broke out in a downtown frame apartment building.

While the Steubenville force fought the first blaze the Weirton department raced two miles across town to the second fire. They were just in time to rescue Mrs. John Pellican, an invalid, who was carried to safety from the second floor.

Meanwhile at the other end of the city, Steubenville firemen fought tenaciously carrying personal belongings of four families to the street and pouring water on adjoining buildings which were menaced.

BANDITS GET $8,000 WORTH OF JEWELRY

Cincinnati, Jan. 29—Two bandits held up Mr. and Mrs. William Palmisano, wealthy Italians, here early today and escaped with cash and jewelry totaling $8,000.

Palmisano, a commission merchant, was confronted by the bandits as he left his garage for his house.

"Take us to your wife's room" one of the bandits ordered, menacing Palmisano.

Palmisano complied, rousing his wife from bed.

While the terror-stricken Mrs. Palmisano collected her jewelry and Palmisano, emptied his pockets of money, the bandits kept up a rapid fire conversation in Italian.

"Shall I give all my jewelry to them?" Mrs. Palmisano asked her husband. "Yes we want it all" one of the bandits rejoined.

As the intruders fled they warned Palmisano not to make an outcry.

STATE WILL DEMAND DEATH PENALTY FOR CONFESSED SLAYER

Self Defense Plea of Man Who Choked Wife to Death

New Philadelphia, O., Jan. 29—The state may demand the death penalty for Harvey Haver, Newcomerstown mail carrier, who late yesterday confessed he killed his wife, Katherine and left her body in an abandoned cistern.

The confession climaxed hours of gruelling questioning and was made suddenly after Coroner Lewis and other officials pointed out inconsistencies in Haver's story that his wife committed suicide by hanging.

"I killed her in self defense," Haver said simply. "She threw a shoe at me. I grabbed her and strangled her. Then I loaded her in my car and took her to the cistern on father's farm.

Haver was tired of his wife and often expressed a desire to "be rid of her," according to letters written some weeks ago by Mrs. Haver.

"He told me he was tired of me and has been beating and choking me," Mrs. Haver said in a letter to two sisters in Pennsylvania. The sisters have arrived here to take charge of the body.

Tragedy Follows Shortly After Shaft Opened For Day's Work

(By United Press)

West Franklin, Ill., Jan. 29.—Five men were killed in an explosion in the Orient mine number two here today, shortly after the miners had entered for work.

The explosion covered only a small area of the mine where nine men were at work. Four escaped.

The mine was owned by the Chicago, Wilmington and Franklin Coal company.

There was no subsequent fire after the explosion and mine owners were at loss to explain it. It was reported around mine entrances that one of the miners going to work lighted a cigaret shortly after entering the shaft and this ignited gas which had gathered at one of the turns.

The five bodies have been removed from the mine.

TWO ARMY AVIATORS DROP SUPPLIES FOR TRAPPED TUG CREWS

Three Escape From Ice-Locked Vessels—Attempt Rescue

(By United Press)

Muskegon, Mich., Jan. 29.—Two army aviators from Selfridge flying field, Mt. Clemens, were expected here today to drop food supplies by parachute to five fishermen trapped since Wednesday in two small ice-locked tugs on Lake Erie.

Three of the eight men originally caught on the tugs, late yesterday managed to work their way ashore over the broken ice flows which bar the Helen N. and the Indian from port.

On reaching here they reported provisions and fuel running low. Otherwise, they said their comrades were in no immediate danger. Efforts to batter a path through the ice to the two tugs will be made by the Goodrich Transportation Co., steamer Alabama which broke loose from the ice last night, after becoming fast while attempting to reach the fishermen.

The men who came to safety over the ice last night are Theodore Graham Jr., engineer of the Indian and Martin Jensen and Floyd Grover of the Helen N. The latter reported their craft had suffered a broken rudder.

WALES NOT TO FALL OFF HORSE TODAY

London, Jan. 29.—The Prince of Wales, with his collar bone broken in yesterday's fourteenth riding mishap, passed a good night and was reported today to be progressing well.

While this fresh difficulty from his persistent horsemanship gave rise to concern among many British subjects who have deemed the Prince too daring without adequate riding ability, the Prince was reported as taking the fracture as only incident to love of following the hounds.

MEN DON'T KNOW HOW TO DRESS

Ashtabula, O., Jan. 29.— Only twelve per cent of the men in the United States know how to dress correctly and only 85 per cent of them have a faint idea of the correct garb to wear, Tom Leslie, director of advertising display of the Wilson Brothers' Clothing Company of Chicago, told the United Press today.

"American women are the best dressed in the world and the men are the worst," he said.

"Parisian men are the best dressed," Leslie said.

PRIZE PLUCKED FROM "GRAB-BAG" CLOSES PURSE TO HUBBY

Columbus, Jan. 29.—Dr. Roy K. Bowman, masseur-husband of Fern Rodgers, ertswhile ingenue in Ed Wynn's musical comedy, "The Grab Bag" pleaded not guilty today when arraigned on charges of defrauding an inn keeper and was held to the grand jury under $10,000 bond.

Columbus, Jan. 29.—The matrimonial barge in which Fern Rogers, erstwhole ingenue of Ed Wynn's Musical Comedy, "The Grab-Bag" and her surgeon husband, Dr. Roy Bowman, sailed so merrily two weeks ago, had struck a snag today with Bowman looking from behind bars in the city jail and Mrs. Bowman seeking annulment of her marriage.

Finis to the romance that climaxed a two day courtship, was written when a detective arrested Bowman on charges of failing to pay a $192 hotel bill. It was in Bowman's luxurious suite in an exclusive hostelry that the scene was enacted.

"Don't let him take me to jail," Bowman pleaded to his wife.

"You wouldn't let me go to jail for a mere $192, would you?" he asked.

"Oh, wouldn't I?" Mrs. Bowman asked, shrugging her shoulders. "I'm tired of paying your bills: That's all I've done since I married you. You're a fake," she added, ironically, shrugging her shoulders again.

Bowman, who posed as a wealthy retired Philadelphia surgeon, leaped into prominence locally when he married Miss Rogers. Subsequently it was revealed he was employed as a masseur in a local turkish bath for $25 a week.

Bowman insisted he was wealthy. When searched at the police station $1.85 cash and a popular model dollar watch was found in his possession.

KNIGHTS AND LADIES OF ST. JOHN PLAN TO REVIVE CRUSADES

London, Jan. 29—The Crusades will be revived this spring by the Order of the Hospital of St. John of Jerusalem.

One hundred Knights and Ladies of the ancient order, one of the two founded in Jerusalem during the crusades, have chartered a ship for a pilgrimage to some of its former strongholds in Jerusalem, Cyprus, Rhodes and Malta.

Neither King George V nor the Prince of Wales, both of whom belong to the Grand Priory of the Order, will be able to go, but the party will include some distinguished English names including the Countess of Cromer, the Dowager Countess of Airlie, Countess Haig, Lady Nunburnholme, Lady Margaret McRae, the Earl of Scarborough, Viscount Galway, Lord Lamington, Lord Treowen and Major General Sir Thomas Yarr.

The pilgrimage starts from Venice on March 7 in the Steamship Asia which will fly the tattered banner of the Order as ensign. Under an old British Admirality order which has never been repealed, all British ships are required to salute the flag of the order but unfortunately the International Signal-book has long ceased to include the banner of the order among the flags likely to be encountered at sea so that it is doubtful if many of the British vessels in the Mediterranean will recognize the ensign when they see it.

The order had its origin in Jerusalem and Acre, as an international lay con-fraternity for the relief of the Crusaders. Later on it was sovereign over Rhodes and Malta where its Knights kept galleys and galleons to attack the Barbary Corsairs and to prevent the spread of Turkish rule in the Mediterranean. This lasted until 1798.

Today, more prosaically but still historically true to its original aims, the Order controls and supports the St. John's Association Ambulance and Brigade in Jerusalem as well as the Ophthalmic Hospital there.

The English chapter includes Knights of Justice, Knights of Grace, and Esquires, as well as Ladies of Justice and Ladies of Grace. These distinctions, though officially recorded in the London Gazette, do not confer any rank or title, merely an opportunity for doing good.

The ribbon is small and black.

Worthman is alleged to be the head of a rum ring in Cincinnati which involves the Hamilton County sheriff. He is being held in default of $25,000 bond.

It is thought he was committed to the local jail to keep him as far away as possible from Cincinnati. District attorneys will continue to hold secret interviews with the prisoner, it is believed.

Old Folks Need a Mild Laxative —Not a "Physic"

Most men and women past fifty must give to the bowels some occasional help else they suffer from constipation. One might as well refuse to aid weak eyes with glasses as to neglect a gentle aid to weak bowels.

Is your present laxative, in whatever form, promoting natural bowel "regularity"—or must you purge and "physic" every day or two to avoid sick headache, dizziness, biliousness, colds, or sour, gassy stomach?

Dr. Caldwell's Syrup Pepsin helps to establish natural, regular bowel movement even for those chronically constipated. It never gripes, sickens or upsets the system. Besides, it is aboslutely harmless and pleasant to take. Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.—Adv.

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

MISSIONARY MEETING HELD DESPITE INCLEMENT WEATHER

Deep snow and a zero atmosphere did not prevent members of the Women's Missionary Society, First U. P. Church from attending a meeting at the home of Mrs. S. M. Bailey, N. King St., Wednesday afternoon.

Mrs. E. C. Moorman presided over the gathering and Mrs. T. H. Bell conducted an impressive devotional service. After the regular business routine, Mrs. A. M. Patterson read a letter from a friend giving an account of the death of Mrs. T. J. Finney, at Assiut, Egypt, whose husband, a missionary there, is a graduate of Xenia Theological Seminary.

Program was conducted by Mrs. E. H. Carruthers, and consisted of letters received from different missions. Letters were from Dr. J. S. McCampbell in the Southland, Mrs. Janet Ballantyne White and her sister, Miss Agnes Ballantyne, Sialkat, India; Miss Helen Martin, Cairo, Egypt; and a unique account of a dinner given by the Prince Regent, Ras Tafra and Wayzero Mana, his wife, in the palace" at Adda Ababa, Abyssinia, here a U. P. mission is located.

Program closed with a series of prayers for the "shut-ins" of the society, ending with a prayer by Mrs. Edwin Galloway. Social time was enjoyed, during which Mrs. J. P. Lytle introduced Mrs. J. P. White, Cedarville, editor, Woman's Missionary Magazine.

Miss Ford was presented a prize for the puzzle contest and Miss Lemma Saunders won a prize in a heart contest. Mrs. Leroy Loe, Yellow Springs, before marriage Miss Prudence Pennington, was presented a silver cake plate.

ANTIOCH STUDENTS ATTEND DAYTON DANCE

Mr. Philip Bassett, Antioch College student, dressed in a "baby vamp" costume of blue brocade with broad yellow scarf, led the Virginia reel at the art students' costume ball in Dayton, Wednesday night.

Miss Mildred Hawxhurst, also of Antioch and Washington, D. C., participated in the dance, dressed as an East Indian girl. Miss Ruth Mangan, Greenville, another Antioch student, wore a Spanish costume.

Painted panels of foreign lands lined the walls for the ball which was elaborately staged by the art students. Following out the idea of a "re-incarnation party" each student was supposed to appear as the character in which it would best suit him or her to return to life. Many brilliant and effective costumes were worn.

SHADES OF WASHINGTON! WHO IS RIGHT?

Columbus, O., Jan. 29—Leaders of Columbus patriotic societies disagree with Rupert Hughes' characterization of George Washington as a "distiller of whiskey, a champion curser and a man who seldom prayed."

"Washington was an Episcopalian and we have prayers written by him," Archdeacon Joseph Dodshon, of the diocese of Southern Ohio, said. "We know that he prayed on the battlefield. He censured his soldiers for using profane language. He was a most religious man."

"In view of the fact that Washington came from a good family it is not likely that he was a profane man," Mrs. Orson Dudley Dryer, regent of the Columbus chapter of the Daughters of the American Revolution, said. "He may have had moments of justifiable wrath when his language was not calm, but on the whole I believe he was religious."

Cincinnati, O., Jan. 29—Neither Rupert Hughes, novelist and self appointed investigator of George Washington's private life, nor Robert L. Joyce of Hunter College, New York, who upholds "lying for one's country," is right.

This is the opinion of Dr. R. J. Condon, superintendent of Cincinnati Public schools, who strongly approves of criticism of Washington by the novelist, that he was a gambler, brewer, drinker, horse racer, liar, curser and dancer.

"It is best to accept the history of our great men as it has been handed down to us," Condon said. "Since to do otherwise cannot do any good and can do great harm in destroying faith in the high character of our American heroes."

MODISH MITZI—The Girls Are So Helpful! By JAY V. JAY

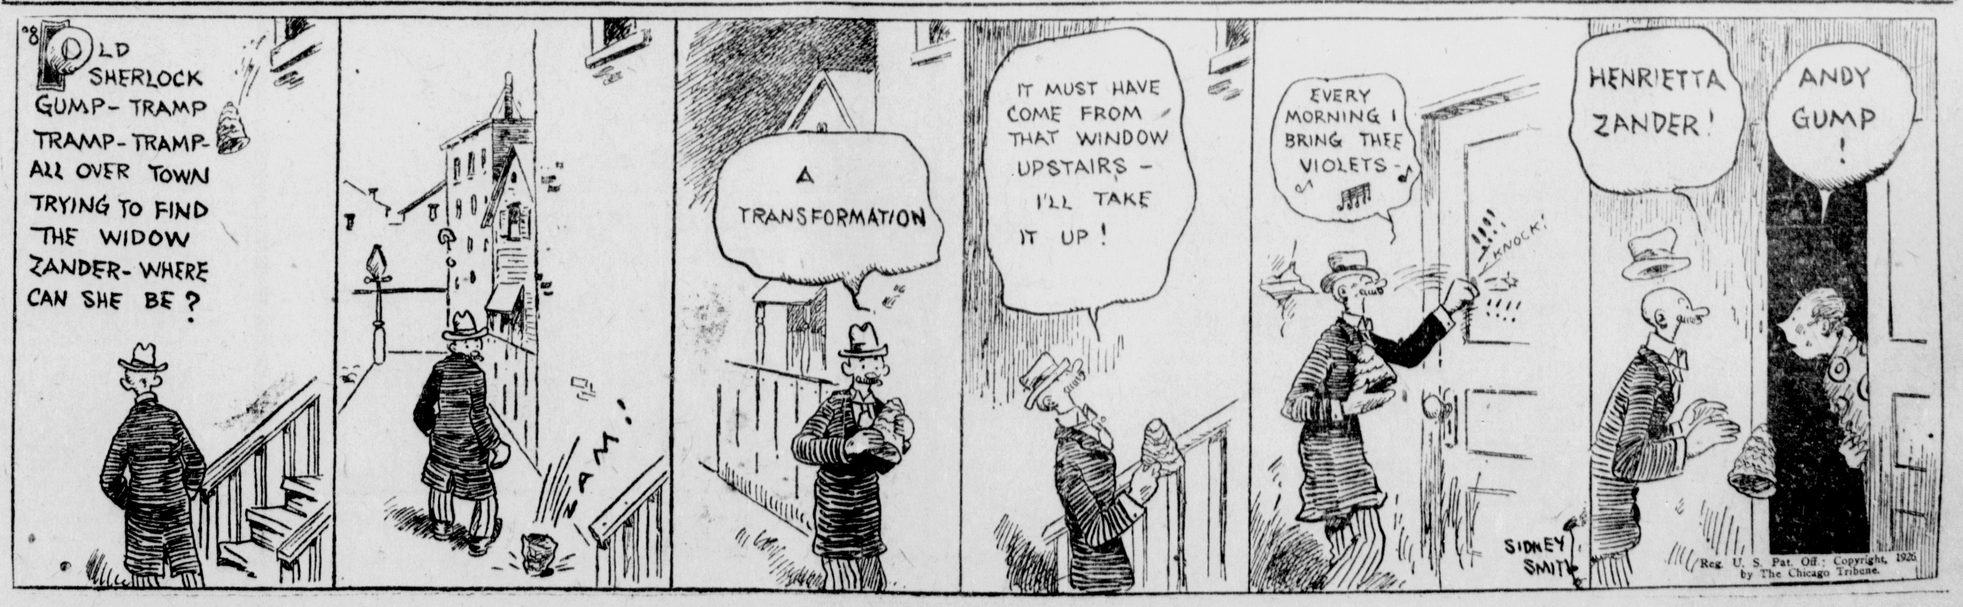

What with Aunt Sophia and Mitzi about to start hurrying Southward there are Things To Be Done. Aunt Sophia, being a good housekeeper, doesn't intend to leave them to anyone else. She will accept a little help from the girls, though, and that is why Polly is wearing a jolly long sleeved dress of cotton print under an apron that buttons on each shoulder and comes way to the bottom of her frock. Aunt Sophia is severely efficient in gingham check.

Adelaide is helping to put away the household effects dressed becomingly in a linen housedress which hardly shows—it is so obscured by the glory of an orange linen apron trimmed with applique flowers in blue and purple. Mitzi, herself, prefers cretonne but it is rubberized cretonne which will permit of washing all the best china before it is put away. Aunt Sophia is going to point that out when she sees, in a minute, or two, what's happening.

NO OVER-"POPULATION."

MANY times in recorded history the populations of countries have outgrown their boundaries and famine or territorial conquests have followed but the time is still to come when the whole world will be over-populated. What will happen is now troubling the minds of the political economists.

At those times in the past when nations overflowed their boundaries it was not merely coincidental that famines, plagues or wars occurred to deplete the population and relieve the situation. Famines followed because there was not sufficient food to feed the multitudes. Plagues swept whole continents because of the congested cities and inadequate housing facilities. Wars of invasion were declared for the annexation of land for colonization by the surplus population and to give immediate relief at home by sending great armies of men beyond the domestic borders to fight that they might feed themselves from the grain stores of less prolific peoples.

What the political economists particularly fear is that civilization is depriving itself of its former quite efficient safety valves. Modern medicine and sanitation are eliminating disease epidemics in the most congested and the poorest living quarters. Plagues may no longer reduce inflated populations except in a few backward countries.

Famine might again come to the rescue if the world should become too small for its inhabitants, but so far ever-improving agricultural methods make it possible for the food production to keep pace with the population. Man is becoming too ingenious to allow himself to starve.

The war remedy may also be denied that future generation which is to experience the situation of an overcrowded Earth. Since the World War great effort has been put forth to establish perpetual world peace and that effort may some day be crowned with success. The people of the United States comprise one of those nations which do not believe in the inalienable right of one nation to invade another for the purpose of colonization by the surplus population of the conquering country. All man may eventually come to the same belief.

Professor Fairchild of the New York University suggests that man might breed for smaller size to reduce the consumption of food. Other forms of birth control, such as for the elimination of the sub-normal, have also been offered as solutions to this great problem of the distant future.

For the assurance of the present generation, however, let it be remembered that a relatively small part of the inhabitable portion of the earth is populated, that if need be many nations could live on their present waste and that science with its synthetic foods, substitutes for natural resources and other creations and inventions is already crossing the bridge.

HEALTH FOR ALL.

CAGED indoors the monkeys of the Philadelphia zoo for years fell victims to tuberculosis. The keepers tried in vain to raise to maturity the monkeys born in the zoo. Two years ago the monkey cages were moved out of doors, the little tree-climbers were given plenty of fresh air the year round, were fed garden greens and were provided with plenty of pure air. There has not been a death from tuberculosis in the monkey cages in two years and baby monkeys are daily delighting the little boy and girl visitors to the zoo.

The public cannot censure the zoo keepers for neglecting to try the "pure food, pure water and fresh air" cure on the monkeys, when there are millions of human beings neglecting to try the same proven preventative and cure on themselves.

There was a time in the congested cities when pure food, pure water and fresh air were not to be had for the mere taking. Then unprincipled merchants sold tainted and adulterated foods to the public; municipalities did not furnish pure water to their residents; inadequate sewerage, belching chimneys and unsanitary housing conditions contaminated and polluted the very air. The death roll annually from epidemics and the "white man's" plague will be recalled as appalling.

Today pure food laws and government meat inspections guarantee the nation the purest of edibles. Today national, state and municipal health departments are supplying pure water to every man, woman and child. Today government and industry are co-operating in purifying the very air. Smoke control is an established thing in most of the cities where inrustrial growth has filled the air with smoke and soot.

Not all human beings are so fortunately supplied with leisure time for a daily round of golf, an hour in the gymnasium or some other form of recreation and exercise, but there is enough pure food, pure water, pure air and good health for every American

BRINING MEATS AT HOME

A Reader Friend has written to ask if it is possible to brine meats at home. Yes, indeed, and many women do it. Mutton is seldom cured and preserved, but the tougher cuts of beef (such as the plate, shoulder and chuck rump and cross-ribs) are satisfactorily home-cured, as well as the commonly cured ham, shoulder and bacon pieces from pork. The ham should be cut off at the hock joint, and the spare ribs taken out of bacon, and ragged edges trimmed smooth.

All formulas for the sugar-brine curing of meats are about the same, varying only a little in the proportion of salt, sugar and saltpeter. Scald the container well (either a stone crock or a hardwood barrel), then sprinkle a layer of salt over the bottom and over each layer of meat as you pack it in, skin-down. When full, cover the meats with boards and weight down with a stone so that all will be below the brine.

Proportions: For 100 pounds of meat allow eight pounds of salt, two pounds of brown sugar, and two ounces of saltpeter. Dissolve all in four gallons of water; this mixture should be boiled and then cooled, after which process is ready to be poured over the packed meat. Seven days after the brine is put on, the meat should be repacked in another container in reverse order (that is, the top meat put now at the bottom and the bottom at the top). The brine is poured over as before. This process is repeated on the fourteenth and twenty-first day, to insure an even cure to all the meat-pieces. Bacon should remain in brine from four to six weeks and hams from six to eight weeks, depending upon the size of the pieces. When cured, each piece should be scrubbed with tepid water and hung up to dry for several days before being smoked, no two pieces touching each other. For all curing use dairy salt, not table salt, as the latter contains starch to keep it dry and the starch may cause the meat to spoil. Many people do not smoke their cured meats, but use them direct from the brine. But smoking helps to preserve the meat.

Smoking: Hang meat in top of an inverted box or barrel over smoke from burning green hickory or any other hardwood inside the box on the ground. Start with a slow fire, and smoke 48 hours.

Just Folks

THE SANE DRIVER

They call me slow and poky and they say I take no chances
For I never race the signal at the busy thoroughfare.
And I never pass a corner without taking both-way glances,
I may sometimes lose a minute, but I've always that to spare.
And I never see a youngster with a hoop or ball or top
But I press the brakes a little and get ready for a stop.

They laugh about my driving and they call me an old lady
Just because I never hurry when a signal change I see,
But I've never paid a visit to Inspector Tom O'Grady
With a traffic violation slip some cop had handed me.
And night or day at street car lines I check my motor down
Because I think our city morgue's the coldest place in town.

I've never missed a railroad train because of careful driving
I've never hauled to hospitals the victims of my speed,
I'd rather by a little care make certain of arriving
Than flirt with death to try to save a minute I don't need.
I may be slow and poky, but my friends will all agree
No one will be a nervous wreck who takes a ride with me.

WRITTEN WORDS

The other day I came across the written words of a number of great and wise writers who had contributed to the literature and philosophy of the world.

The collection was in the form of a scrap book containing the original sheets from great books by Milton, Chaucer, Shakespeare, and others. And there were pages from the first English translation of the Bible.

It was most fascinating to read in the original sheets the thoughts of thinkers who lived hundreds of years ago.

I thought of the power of the written word and all that it implies.

When Lincoln wrote upon the back of an envelope the simple words of his heart, expressed in his Gettysburg speech, he little dreamed that they were to become immortal, even as great character is immortal.

Senator Ingalls of Kansas is remembered by but a few. And yet his poem called "Opportunity" has become a classic—even though its truth or teaching is questioned.

He who has, during a long life, seen little of the world and hidden himself alone that he might think and write, is a benefactor quite as much as he who has mixed in the crowd. How rich the world has become from its Emersons and Thoreaus!

But when you put to paper any thought, be very sure that it is YOU—the best of you.

It was Thoreau who said: "A written word is the choicest of relics."

WHO'S WHO AND WHAT'S HAPPENED

SALLY LEE leaves her husband after a year of quarrels caused by her desire to continue working and goes to Atlantic City as public stenographer in a fashionable hotel. There she is offered a chance to act as fashion model, an experience which brings disillusionment.

TODAY'S INSTALMENT

XXX—ALONE IN A CROWD

THERE was hardly ever much to be done on Sunday. Everyone was either sleeping late from festivities of the night before or out on the beach enjoying the sunshine. Sally reported at the manager's office in the morning as usual, hoping that there would be some work to do but there was nothing and she was told that she need not come back until afternoon.

VIOLET DARE

She wandered about restlessly, sat at her desk and cleaned her typewriter which was already in perfect order—stacked the paper in neat piles in the drawer of her desk and wandered over to the window from which she loved to watch the glittering pageant below. It all looked different to her now. The women strutting by like peacocks brought back the bitter memory of the day when she too had been a part of fashion's parade. Her cheeks burned whenever she thought of it.

Idly she strolled over to the elevator and went up to her room. As she glanced from the cool-tinted walls to the dainty painted furniture she wondered how long it would be before Babette's prophesy would come true and she would have to give up these charming, comfortable surroundings for a little, bare room.

She had no right to be unhappy, she told herself, when everyone had been so good to her here at the hotel. Her work was easy, the surroundings were pleasant—only Tom had failed her and Tom was the only person in the whole wide world for whom she cared.

She put on a hat, surveying her reflection rather proudly. Why did Tom ignore her when everyone else seemed to find her attractive? She fluffed out her hair over her cheeks, heightened her color with a little rouge and wandered aimlessly over to the dresser and picked up some letter paper and pushed it in the pages of a book. She must answer Tom's letter. Time after time she had tried and always the words refused to come, for her pride was so hurt that she could not tell him the things she wanted to. And she could not write to him as he had to her, casually, as though their whole little world did not lay in ruins.

Suddenly the telephone rang, and hoping that it was someone who wanted her to take some dictation she rushed to answer it. But Elliot Dane's voice spoke to her.

"Miss Lee is not in," she said, trying to disguise her voice. "This is the maid speaking."

"You can't fool me," his voice came back jovially. "Oh Sally haven't you forgiven me?"

"Miss Lee isn't in," Sally insisted stubbornly.

"Oh, isn't she? Well, I'm right downstairs and I'm coming up to find her."

The 'phone clicked as he hung up and Sally looked around desperately for a moment wondering how she could escape. Clutching her book under her arm she rushed to the door and down the hall.

"Take me down, please," she asked, as she found a waiter just going in the Service elevator. "I don't want to go to the other elevator. Oh hurry, please."

"Oh very well, Miss, but as long as they let you use the other one I thought you'd rather."

When she reached the lobby she looked nervously about and then hurried out the nearest door. She must go somewhere where Elliot Dane couldn't find her. In her heart she blamed him for much of her unhappiness, for he always came with his beguiling attentions when she was most lonely.

Out on the beach she found a sheltered corner near one of the piers where she sat, her book open on her lap, trying to write a letter to Tom. But she was choked, inarticulate, when she tried to write to him.

Suddenly an idea seized her. She figured up how much money she had. She could get along without any new clothes, she decided. She would take the money she had saved toward paying back Mr. Stone, drive away her own loneliness, and give Emily and Jack a holiday.

Sally sat alone on the beach trying to write a letter.

Feverishly she wrote a letter inviting them to come and stay two days with her. She simply must see their darling baby, she wrote, and there was no other way as she was too busy to go back to New York until the heel had no further need for her services. If she couldn't have Tom at least she could have the people who were dearest to him, and perhaps through seeing them she could find some way out of her difficulties. She would squander every cent she had on them, give Emily a glorious two days of rest that she must need terribly.

When the letter was finished she forgot her fears of Elliot Dane, forgot her loneliness, and thought only of her plans for entertaining them. Hurrying back to the hotel she timorously asked the clerk about rates for the rooms—she would have her party in style and put her guests up at the best hotel. Learning that he could make her a special rate she fairly danced as she went to her desk.

COLORED TOSSERS ORGANIZE TO MEET ATHENIANS MONDAY

Newly organized Xenia Buckeye Big "5" colored basketball team, will engage in its first game of the season Monday night meeting the famous Baltimore, Md., Athenians at Central High School gym.

Local management is negotiating for DeHart Huboard, Cincinnati negro track star, and holder of several world sprint records, to appear in the Xenia lineup in the contest. Hubbard is playing independent basketball in Cincinnati and his appearance should be an attraction. His brother, another famous athlete, may also appear in the lineup.

Local team will be composed of such stars as Joe and Rock Anderson, possibly the Hubbard brothers and Rankin Heath.

The Athenians lost a close game to the champion Wilberforce College quintet recently but are said to be one of the leading independent organizations in the country. Included in the Baltimore lineup will be Poles, Baskerville, Keller, Veney and Wheatley.

Springfield Aces will play East High School Alumni stars in a preliminary. Games start at 8 o'clock.

Tickets for the game may be obtained at Hayward's cigar store, Watkin's barber shop or Rountree's billiard parlor. Reserve seats will cost 75 cents and general admission tickets 50 cents.

FORMER VETERANS' BUREAU HEAD FINED

Chicago, Jan. 29—Attorneys for Charles R. Forbes, former head of the Veterans Bureau and John W. Thompson, St. Louis contractor will go to the U. S. supreme court in an effort to reverse the jail sentence and fine imposed on the two alleged conspirators today. This announcement was made today following the refusal of the federal circuit court here to grant Forbes and Thompson a rehearing.

Forbes and Thompson were sentenced to two years in prison and fined $10,000. They were found guilty of a charge of conspiracy to defraud the government in connection with hospital contracts.

BOILER BLAST IN THEATER KILLS ONE

Cleveland, Jan. 29—A near panic occurred in a district motion picture theatre here last night when a boiler in the basement exploded, killing Paul Lazare, theatre manager.

Lazare was standing in the lobby near a door leading to the basement when the blast occurred. He had just closed the door after attending the furnace.

The force of the explosion hurled the door against Lazare, fracturing his skull. He died an hour later.

Steam poured into the theater and panic stricken patrons ran for the exits. The crowd was soon calmed, however.

New Giant Southern Broadcasting Station Now in Use

One of the most powerful radio stations in the south, WIOD (Wonderful Isle of Dreams) is now broadcasting daily from Nautilus Island, Miami Beach, Fla. The wave length is 248 meters or 1210 killocycles and the power, 1,000 watts. Almost a dozen hotels are connected with the island station by remote control, and a novel switchboard arrangement dispenses with long waits enabling the operator to put a program from any of the hotels "on the air" without a moment's delay. The broadcasting towers, looming 250 feet in the air, are said to be the largest privately owned towers, for broadcasting only, in the United States. Above is a glimpse of the station which entertains from 8:30 until 9:30 o'clock with a wait of an hour, then a program which lasts until midnight.

Attorneys for Martin Durkin, Chicago's two-gun "sheik bandit," are attempting to construct a defense to offset his incriminating boasts, as prosecutors prepare to make a fight to send him to the gallows. Newest photo of Durkin shows him facing Judge Miller in the criminal court, Chicago, for examination. Inset is the judge, who will try him. The "sheik bandit" is also shown with his attorneys, Ahern (let) and Terrill (right).

PILL-SLAVE FREED FROM CONSTIPATION

Kellogg's ALL-BRAN brought natural relief in a few weeks

A remarkable, convincing tribute is paid Kellogg's ALL-BRAN in this letter from Mr. F. C. Aminsen, of Seattle:

"I suffered with chronic constipation for many years and was compelled to use pills every night, but since I got your Kellogg's ALL-BRAN it works fine. I would not be without it. I was so deathly sick of taking pills every night. Now it is so different. Kellogg's ALL-BRAN works so naturally and is pleasant to take."

F. C. AMINSEN,
Kennyhole, Seattle, Washington.

You can get permanent relief from constipation with Kellogg's ALL-BRAN if eaten regularly. Two tablespoonfuls daily—or in chronic cases, with every meal. Doctors recommend it because it is ALL BRAN. It does a job only ALL-BRAN can do. Part-bran products may not do any good at all.

Eat Kellogg's ALL-BRAN with milk or cream. Use it in cooking. Try the recipes given on the package. Kellogg's ALL-BRAN is made by Kellogg in Battle Creek, Michigan. Served by the leading hotels and restaurants. Sold by grocers.

The Only Pure Milk

Is Milk That Has Been

PASTEURIZED

Raw milk, in spite of the most careful handling, is not free from germs. This has been fully demonstrated by the most careful scientific tests. Proper pasteurization of milk destroys any pathogenic organisms which might be present in raw milk and these bacteria cause tuberculosis, typhoid, scarlet fever and diphtheria. On the other hard pasteurization does not destroy the natural healthful organisms in the milk nor does it mar its fresh, sweet flavor.

Since milk is absolutely essential to the physical development of children and the health of adults it is imperative that safe milk be available at all times.

OUR MILK IS 100 PERCENT PURE AND IS ABSOLUTELY SAFE.

Miss Elinor Stafford Millar, who is to fill an engagement at First M. E. Church, Xenia, from January 31 to February 14, comes from the Extension Department, Moody Bible Institute, Chicago, and is said to be an exceptional inspirational speaker.

Her work has taken her around the

MISS ELINOR MILLAR

world twice and across the Pacific ocean nine times. She visited many European countries, which has brought her into touch with all types of humanity from royalty to the slums.

During the time of Miss Millar's first trip from Australia to Europe, she was a delegate to the first conference of the Y. W. C. A., held in London. While there she was invited to visit Ireland, Scotland and France, where she spoke before large audiences, and was received at Windsor Castle by Princess Christine on behalf of Queen Victoria, who was ill at the time. She was also a guest at Mansion House, London, and took part in a great function at Southhampton, as a guest of the Hon. Mrs. Eliot Yorks, daughter of Baron Rothschild; was received in Edinboro, by the Lord Provost and was a guest for three months in the home of Robert Stuart, protector fiscal of Midlothian, who was a devout Christian and one of the first citizens of Edinboro.

Trinity and First M. E. Churches will combine in the special meetings, which Miss Millar will conduct in the First Church beginning Sunday morning and continuing two weeks. Except Saturday night, services will be held each night at 7:30. The public is invited.

A large chorus choir, under the direction of R. A. Stillings, will lead the singing.

COMMISSIONS ASKS FINNEY TO OBTAIN CODIFYING COSTS

Re-codification of all city ordinances now in existence with subsequent repealing of many of the obsolete regulations which are not now enforced, was again informally discussed by City Commission although no action was taken at the regular meeting on Thursday night.

Commissioners generally expressed themselves in favor of the proposal if the expense of the project is not too great. City Solicitor J. A. Finney is expected to present an estimate of the expense involved at the next regular meeting.

The city's ordinances have not been recodified for fifteen years, the city solicitor pointed out. It had heretofore been the practice to make the re-codification every ten years, he said.

Presentation of his annual financial statement for 1925 by City Auditor T. H. Zell was the only other feature of the meeting. After complimenting commissioners for the healthy financial condition of the city despite the handicap of a low tax rate, Auditor Zell was in turn commended by commissioners for the fine showing of the city waterworks plant under his supervision in 1925.

Charles Kelble, newly appointed commissioner to take the place of Harry Sparks, resigned, was presented with a large bouquet of flowers by friends and admirers in the city at the meeting.

A Triumph!

No Car of Recent Years Has Aroused Such Interest

There is no parallel in our entire experience—or in all the 17 years of Paige and Jewett success—to the keen and universal interest shown in The New-Day Jewett Six!

Already this car has been viewed by a greater number, we believe, than have attended the introductory showing of any automobile. Throughout the country, many thousands purchased New-Day Jewetts during the first two weeks—more actual sales, we believe, than have ever been made in a like period on a new car.

Such interest is natural, for The New-Day Jewett is a most unusual new car. It is truly a new-day automobile—designed for today's motoring needs and admirably fitted to meet them.

To gain full appreciation of the remarkable results fine Paige engineering has attained in new-day driving ease and brilliant performance, you must not only see this beautiful Jewett, but ride in and drive it. If you have not yet been able to do this, delay no longer!

I Wonder If This Is Why?

China has some 420,000,000 folks milling around in it!

The United States claims 110,000,000.

There are 460 Drug Stores in China!

There are FIFTY THOUSAND (50,000) druggists in the United States.

Could THIS be the reason that China is so backward in progress and so torn with political wars and emotional twists?

Is the drug store a civilizer or do drug stores FOLLOW civilization?

WE Americans when we develop a pain or a misery or a corn or such, lope into the nearest drug store, lay down a dime or a two bit piece and quit hurting. Do you suppose if we COULDN'T do that, we'd get militant and start a war or a revolution? Are Earaches, Toothaches, Constipations and Sore Corns the underlying reasons for War and National BACKWARDNESS?

There's SOMETHING ODD about this situation but darned if I can figger it out so as to PROVE ANYTHING!

What do YOU dope out on it?

DOC. SAYRE.

Shorty Says:-

Doc may be right on this China idea and now that he's brought up the subject, did you ever figger how the wimmen folks have DROPPED Paris as a style center and have took up Scotland?

Short Skirts? Right! Rolled Stockings? Right! Sporran? Right! (The "sporran" takes the place of a compact)! Music? Right! A Saxaphone, of course, TRIES to follow a bagpipe and at times does right well.

So as long as Doc couldn't PROVE anything, I don't see why I should either. Or mebbe you haven't read this far.

Is your appetite gone?

REMEMBER, how it used to be when you could hardly wait for mealtime? And then, sit down and eat several helpings of everything—enjoy every morsel and get up from the table feeling satisfied with the World, happy with everybody and ready for anything?

But what a difference in living when even the sight and smell of food sickens you! Never hungry—no matter how tempting the food is—nothing tasting right. And then, after nibbling at a few bites, feeling worse than ever.

Oh, life is hardly worth living this way. And yet, all in the World the matter with you is that you are starving for rich, red blood. And it is acknowledged everywhere that S. S. S. helps Nature build these healthy red-blood-cells by the millions!

All you need to do to get back that wonderful appetite is to build rich, red-blood-cells with S. S. S. It's simple. Just try it, like thousands are doing every day. See for yourself what S. S. S. will do.

S.S.S.

S. S. S. means blood with a punch—brimful of new life and energy. Get your S. S. S. at any good druggist. The larger size is more economical.

GEOGRAPHY EXAMINATION ON FLORIDA

1. Where is Florida? ANS.—You've asked about something too deep for me. It is laying under the water down south some place. It is impossible to say how large it is because they are adding miles of ocean and lake bottom to it every day.

2. What do they raise most in Florida? ANS.—Well, mostly they raise the price of real estate. It grows in the night. The largest city in Florida is usually Miami but that all depends where the most real estate agents are gathered.

3. What is the principal song in Florida? ANS.— The principal song is "How Dry I Am." Drinking water there is about as hard to get as drinking whiskey is here.

4. Tell all you can of the fish found in Florida. ANS.—Mostly "poor fish" are found. Then, too, the suckers are abundant. There are some crabs, cats and some big fish in the swim.

5. What are the principal imports? ANS.—The principal imports are real estate speculators. The principal exports are the same gentlemen riding freight trains, walking, bumming rides and traveling in Packards.

6. Tell what you can of the farm lands in Florida. ANS.—I can tell nothing of the farm lands in Florida. As I get it, they are nearly all under water, and corn and wheat is planted by experienced divers who are sent down under the water with them.

7. What is there between Texas and Florida? ANS.—I understand there is quite a gulf between the two, but what the trouble is I don't know. It may be, because Texas always laid claim to being the largest state in the Union, but now since Florida is annexing the sea bottom, the Texans are afraid Florida will take the honor away from them.

ASK MAIL PATRONS TO SHOVEL SNOW

Because of the additional burden placed on rural mail carriers by the recent heavy snows, Postmaster C. S. Frazer requests that patrons of the Xenia Post Office living on rural mail routes comply with regulations requiring that approaches to mail boxes be cleared of snow.

Rural mail carriers claim heavy snow drifts have rendered the approaches to a majority of the boxes over the county almost impassable. They say it is extremely difficult to reach the boxes without leaving their conveyance.

For the accommodation of the carriers, the postmaster asks that this regulation be complied with promptly.

EX-BROKERS BUSY IN PENITENTIARY

Columbus, O., Jan. 29.—George Beazell and William H. Chatfield, former Cincinnati brokers, serving sentences of nine years each in Ohio Penitentiary for embezzlement, are leading active lives.

Each day finds the two in the penitentiary library, supplying books to other prisoners and keeping in order the hundreds of volumes and periodicals.

In the evenings they aid in the revival meetings in progress now. Both Beazell and Chatfield have been active in song leading at the services conducted in the penitentiary chapel.

"I believe the services are a great benefit to the prisoners," Beazell declared. "Some of them, hardened criminals, come forward at the meetings visibly affected and make resolutions for a better life."

Your next Car should be a BUICK

For Comfort's Sake

The Better Buick offers every ordinary motoring comfort, and many that are exclusively Buick: Easier starting—a *new, high-speed* starting motor does it. Smooth running from the go—Automatic Heat Control is an exclusive Buick feature. Easier steering—Buick's 5-control-surface steering gear is the most expensive and most efficient type today.

For Safety's Sake

Buick surrounds you with every ordinary protection, and then adds Buick protection: Buick *dependability*, which takes you and brings you back, on time, all the time. Buick *mechanical* 4-wheel brakes, with no liquid in them to expand, contract or leak away. And Buick Controllable Beam Headlights, with steering wheel control, which make night driving a pleasure.

For Economy's Sake

No other car has the "Sealed Chassis" and the "Triple Sealed Engine." The "Sealed Chassis" lowers operating costs by enclosing every operating part inside a dirt-proof, oil-tight housing, while "Triple Seals" close every engine point of entry to dirt and the wear dirt causes.

For Value's Sake

At present prices, Buick with all of its added comfort, safety, and economy, is easily the greatest automobile value in the world.

If you want finer transportation at lower cost, come in and see the Better Buick!

PIQUA STORE OWNED BY XENIAN DAMAGED BY TUESDAY BLAZE

Damage estimated at approximately $10,000 was caused by fire in the New York Sample Store, Piqua, owned by Jacob Colp, Xenia, Tuesday evening, the owner declared upon his return from Piqua.

Mr. Colp is proprietor of The Sample Store, S. Detroit St., this city, and established the store at Piqua a year ago. Loss is mostly in stock, entirely covered by insurance.

The New York Sample Store building in Piqua as well as an adjoining building which also suffered from the blaze, are owned by Charles H. May, who is sojourning in Florida.

Firemen responding to the alarm at 6:40 p.m., found the rear end of the store a mass of flames. It had gained considerable headway before firemen arrived.

Firemen battled the blaze for an hour before getting it under control. The sky-light of the store was broken, paint on the woodwork blistered and glass on the front door cracked from the intense heart, Mr. Colp said. The Xenia owner was called to Piqua when the fire broke out.

Blaze was discovered by Samuel Sever, manager of the store, who found rags had caught fire from a gas heater. He was painfully burned in attempting to extinguish them and the fire got beyond his control.

MRS. HARRIET BROWN SUMMONED BY DEATH

Mrs. Harriet Brown, Jamestown, widow of John C. Brown, died of infirmities of age late Thursday.

Mrs. Brown was born in Xenia, the daughter of Andrew and Hester Ann McCarty. She lived in Xenia until her marriage to John C. Brown. For seven years, she was a teacher in the public schools of Xenia. Her married life of more than fifty years was spent in Jamestown, where she was a member of the United Presbyterian Church.

No children were born to Mr. and Mrs. Brown, but nephews and nieces spent much time in the Brown home. Miss Katherine Hazlett a grand niece, now of New York, made her home with them for many years.

Mrs. Brown is survived by two brothers and one sister, A. M. McCarty and J. H. McCarty and Mrs. James M. Cooper, all of this city. The Misses Harriet and Bertha McCarty, Mrs. Robert Hudson, Fremont and Mrs. Carl Arnold, Dayton, are nieces.

Funeral arrangements have not been made.

ELIJAH LINEBAUGH ANSWERS SUMMONS

Elijah Linebaugh, 70, prominent farmer, died at his home in Byron, Trebein and Fairfield Road, Thursday afternoon. He was widely known throughout the county.

He is survived by his widow, three sons, John, Arthur and Edwin, Dayton, O.; and three daughters, Mrs. George Warner and Mrs. Chester Harner, Osborn, and Mrs. William Stewart, of near Byron.

Funeral services will be held at the residence Monday afternoon at 1:30 o'clock, and at Byron Church at 2 o'clock. Burial will be made in Byron Cemetery.

GRADE CROSSINGS BEING ELIMINATED

Cleveland, O., Jan. 29.—Elimination of all grade crossings on the Pennsylvania railroad in Cleveland will be completed this year, City Manager Hopkins has announced.

"The city has concentrated its funds on the Pennsylvania grade crossings. With the completion of that work there will be sufficient funds to carry out an extensive elimination program on other lines," Hopkins said.

The cost of grade eliminations is split between the city and the railroad. The city bears 35 per cent of the cost and the railroad 65 per cent.

FREED OF CHARGE

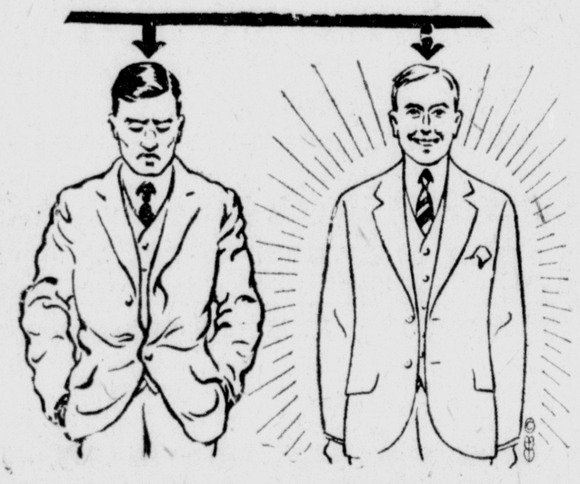

Wilmington, Jan. 29.—Charges of uttering a check without funds in the bank against Harry Hopkins, Jamestown, insurance agent, were dismissed by Mayor E. P. West when he arranged to refund the money and The Clinton County National Bank and Trust Co., agreed to drop prosecution. Hopkins is said to have written a check for $35 on a Jamestown bank which he gave his brother, Elijah Hopkins, New Antioch.

This tragedy of history proves how truly you need a clear soap

At a brilliant pageant, directed by the famous Leonardo de Vinci, a young boy was gilded from head to foot. It caused his death—because his pores were clogged.

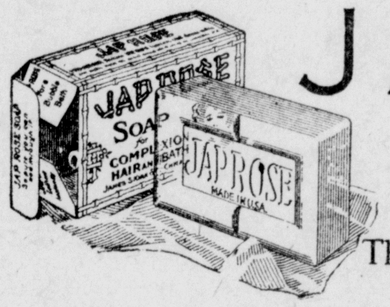

This shows how important to both health and beauty it is to use a soap that thoroughly cleanses pores to their very ends without clogging them.

The one soap that does this best, beauty specialists say, is dainty Jap Rose.

Unlike thick, coarse soaps which clog pores, Jap Rose is so fine, so pure that it dissolves completely in water and hence can enter, cleanse and stimulate the 5 miles of tiny pores in your body.

You can tell it is doing this by the pleasant temporary tingle that follows its first use.

XENIANS SHIVER ON COLDEST NIGHT OF WINTER AS SUB-ZERO WEATHER PREVAILS

Temperature reached the lowest point this winter and probably during the last several winters in Greene County late Thursday night and early Friday.

F. A. Klein, W. Second St., reported the lowest temperature, his thermometer showing eighteen degrees below zero at midnight Thursday and a slow rise Friday morning. According to Mr. Klein's record it was fourteen degrees below at 5 o'clock Friday, eight below at 7 and at 8 o'clock it was still one below zero.

Goes Station lost the honor of being the coldest point in the vicinity, according to M. E. Shoemaker, grocer at Goes, whose thermometer registered only eight degrees below zero at 5:30 Friday and stood at zero at 9 o'clock. He had no record for Thursday night.

Thermometer at the Lampert Floral Co., Springfield Pike, registered the coldest point between 1 and 2 o'clock Friday morning. At 12 o'clock the record showed twelve below and thirteen below between 1 and 2 o'clock, Friday. Temperatures began to rise at 3 o'clock and the Lampert thermometer registered 6 below at 6 o'clock.

COLD WAVE HITS EAST AS RELIEF REACHES MID-WEST

More Than 2,000 New Yorkers Driven Into Chill Blasts By Early Morning Fires—Near Zero Weather Recorded—Chicago Feels Relief

New York, Jan. 29—Extreme cold and fire combined to harass New York today.

More than 2,000 persons were driven from their homes during the early morning hours by fires in numerous parts of the city. They were forced to flee into a wintry morning, with a gusty wind blowing and the thermometer on the streets hovering around zero.

Police and fire stations were overtaxed, caring for the refugees and extinguishing the fires. Property loss was in no case heavy.

New York, Jan. 29—Whipped downward by an eighty mile gale, temperatures here today stood at one above zero in the streets with prospects of going even lower.

The slump in the mercury started late yesterday when the wind at one time reached a velocity of 84 miles an hour. Pedestrians who were not blown from their feet walked warily along the streets to work as huge electric signs creaked overhead.

Shipying was tied up in the harbor and incoming vessels were delayed by storms at sea. The weather bureau gave little hope for warmer weather in its forecast today.

Chicago, Jan. 29—Relief came to the middlewest today from the sub-zero weather of the past two days.

Thermometers in this forecast area were around zero and above today, compared with a low of thirty degrees below zero early yesterday.

Three deaths were ascribed to the cold.

ROCKEFELLER IN BETTER HEALTH THAN EVER

Cleveland, O., Jan. 29.—Despite his eighty-seven years and stories to the effect that he is breaking fast, John D. Rockefeller is in better health and physical condition now than he was fifteen years ago, Dr. Hamilton P. Bigger, the ex-Ohio millionaire's personal physician for forty-five years, told the United Press today.

"When I left him at Grand Beach, Fla., his condition was really better than that of any other man of his age that I have known, declared Dr. Bigger. "I expect to join him next month, not in an official capacity but as a guest."

Rockefeller does not come to Cleveland these days, Dr. Bigger explained because many of his most tender associations and cherished memories were destroyed with his old home at Forest Hills which burned down ten years ago.

Dr. Bigger revealed some of the aged Croesus' secret charities, saying right here in Cleveland, Rockefeller spends more than $100,000 a year to help out old friends and acquaintances who are in need. The public never knows who these men are and has no idea of the magnitude of Rockefeller's charities.

Dr. Bigger has travelled more than 250,000 miles with the Rockefeller family, accompanying them to France when the youngest daughter, Mrs. Charles Strong died in 1906.

A popular legend about Rockefeller was dispelled by Dr. Bigger during the interview. Rockefeller, he explained had a breakdown in 1890. By concentration he cured himself and can now eat any food he craves.

"Most people have the idea that he can only eat light foods, that's all rot," he concluded.

The president does not approve of his plan. "As yet there has been no satisfactory solution proposed in bills before congress," he said.

DAYTON JURIST ARRESTED ON LIQUOR CHARGE IN CINCINNATI HOTEL ROOM BY DRY LEAGUE AGENTS

Judge Robert D. Patterson Found In Bath Tub Officers Say

(By United Press)

Cincinnati, O., Jan. 29.—Liberated under $1,000 bail on charges of violating the prohibition laws, Common Pleas Judge Robert Patterson of Montgomery County, prepared for his arraignment today.

Judge Patterson and a Dayton attorney whose name was not disclosed, were arrested in a raid on a hotel room last night, led by T. B. Jarvis, superintendent of the Cincinnati Anti-Saloon League and three other agents.

Jarvis will testify when Judge Patterson is arraigned in the North Bend dry court, probably this afternoon.

Judge Patterson was lying in a bath tub when the agents entered his room.

"He threw his arms around a dry officer's neck and shouted: "I wish I had some one to love me,' Jarvis declared.

"The Dayton attorney," Jarvis asserted, "was lying, half clothed on a bed. We found several bottles of liquor."

Judge Patterson emphatically denied the charge and intimated he may file libel proceedings, charging Jarvis defamed him.

Patterson is here attending the meeting of the Ohio State Bar Association.

Jarvis said he had been informed liquor would be found in Judge Patterson's room.

Judge Patterson's friends asserted the Anti-Saloon League had trailed Patterson and instigated his arrest because he had reversed several liquor convictions in village courts near Dayton. Judge Patterson also expressed this as a motive for his arrest.

Jarvis denied this assertion, asserting the league "shows no favoritism where violations of the liquor law were involved."

Jarvis said seven half pints of liquor were found in Judge Patterson's room.

HIGH SCHOOL BURNS WITH $100,000 LOSS DURING COLD SPELL

Four Hundred Pupils Out of School In North Baltimore

(By United Press)

North Baltimore, O., Jan. 29.—Fire of undetermined origin destroyed the $100,000 North Baltimore High School during the night, leaving 400 students without a place to attend school.

Steps to rebuild the structure will be taken immediately, school board officials announced today.

Apparently the blaze had been smouldering for several hours before it broke out at 4 o'clock this morning. A general alarm was sounded but due to low water pressure and the intense cold which froze the water in the nozzles, firemen were powerless to combat the blaze.

In addition to the building the school library valued at $25,000 was consumed.

The building was a twelve room structure.

Powerless to control the blaze firemen concentrated on saving nearby buildings threatened by the flames.

E. E. Leidy, superintendent of the school, said origin of the fire was unknown.

The fire started in the furnace room Soon the building was a roaring inferno. Practically nothing of value was salvaged.

Emergency accommodations will be provided for the students and teachers Leidy said.

FAMILIES ABANDON HOUSES WHEN BLAZE FOLLOWS COLD WAVE

Firemen Effect Heroic Rescues During Two Conflagrations

Steubenville, O., Jan. 29—Disastrous fire in the residential section of Weirton, W. Va., across the river from here early today consumed five homes before it was brought under control.

Fourteen families were forced into the bitter cold. Several heroic rescues were effected. The blaze originated in the home of James Wilson when a clinker fell from an open grate, igniting a rug. Unable to cope with the flames, the Weirton fire department summoned Steubenville apparatus. An hour after the fire started, another blaze broke out in a downtown frame apartment building.

While the Steubenville force fought the first blaze the Weirton department raced two miles across town to the second fire. They were just in time to rescue Mrs. John Pellican, an invalid, who was carried to safety from the second floor.

Meanwhile at the other end of the city, Steubenville firemen fought tenaciously carrying personal belongings of four families to the street and pouring water on adjoining buildings which were menaced.

Cincinnati, Jan. 29—Two bandits held up Mr. and Mrs. William Palmisano, wealthy Italians, here early today and escaped with cash and jewelry totaling $8,000.

Palmisano, a commission merchant, was confronted by the bandits as he left his garage for his house.

"Take us to your wife's room" one of the bandits ordered, menacing Palmisano.

Palmisano complied, rousing his wife from bed.

While the terror-stricken Mrs. Palmisano collected her jewelry and Palmisano, emptied his pockets of money, the bandits kept up a rapid fire conversation in Italian.

"Shall I give all my jewelry to them?" Mrs. Palmisano asked her husband. "Yes we want it all" one of the bandits rejoined.

As the intruders fled they warned Palmisano not to make an outcry.

STATE WILL DEMAND DEATH PENALTY FOR CONFESSED SLAYER

Self Defense Plea of Man Who Choked Wife to Death

New Philadelphia, O., Jan. 29—The state may demand the death penalty for Harvey Haver, Newcomerstown mail carrier, who late yesterday confessed he killed his wife, Katherine and left her body in an abandoned cistern.

The confession climaxed hours of gruelling questioning and was made suddenly after Coroner Lewis and other officials pointed out inconsistencies in Haver's story that his wife committed suicide by hanging.

"I killed her in self defense," Haver said simply. "She threw a shoe at me. I grabbed her and strangled her. Then I loaded her in my car and took her to the cistern on father's farm.

Haver was tired of his wife and often expressed a desire to "be rid of her," according to letters written some weeks ago by Mrs. Haver.

"He told me he was tired of me and has been beating and choking me," Mrs. Haver said in a letter to two sisters in Pennsylvania. The sisters have arrived here to take charge of the body.

PRIZE PLUCKED FROM "GRAB-BAG" CLOSES PURSE TO HUBBY

Columbus, Jan. 29.—Dr. Roy K. Bowman, masseur-husband of Fern Rodgers, ertswhile ingenue in Ed Wynn's musical comedy, "The Grab Bag" pleaded not guilty today when arraigned on charges of defrauding an inn keeper and was held to the grand jury under $10,000 bond.

Columbus, Jan. 29.—The matrimonial barge in which Fern Rogers, erstwhole ingenue of Ed Wynn's Musical Comedy, "The Grab-Bag" and her surgeon husband, Dr. Roy Bowman, sailed so merrily two weeks ago, had struck a snag today with Bowman looking from behind bars in the city jail and Mrs. Bowman seeking annulment of her marriage.

Finis to the romance that climaxed a two day courtship, was written when a detective arrested Bowman on charges of failing to pay a $192 hotel bill. It was in Bowman's luxurious suite in an exclusive hostelry that the scene was enacted.

"Don't let him take me to jail," Bowman pleaded to his wife.

"You wouldn't let me go to jail for a mere $192, would you?" he asked.

"Oh, wouldn't I?" Mrs. Bowman asked, shrugging her shoulders. "I'm tired of paying your bills: That's all I've done since I married you. You're a fake," she added, ironically, shrugging her shoulders again.

Bowman, who posed as a wealthy retired Philadelphia surgeon, leaped into prominence locally when he married Miss Rogers. Subsequently it was revealed he was employed as a masseur in a local turkish bath for $25 a week.

Bowman insisted he was wealthy. When searched at the police station $1.85 cash and a popular model dollar watch was found in his possession.

The explosion covered only a small area of the mine where nine men were at work. Four escaped.

The mine was owned by the Chicago, Wilmington and Franklin Coal company.

There was no subsequent fire after the explosion and mine owners were at loss to explain it. It was reported around mine entrances that one of the miners going to work lighted a cigaret shortly after entering the shaft and this ignited gas which had gathered at one of the turns.

The five bodies have been removed from the mine.

TWO ARMY AVIATORS DROP SUPPLIES FOR TRAPPED TUG CREWS

Three Escape From Ice-Locked Vessels—Attempt Rescue

(By United Press)

Muskegon, Mich., Jan. 29.—Two army aviators from Selfridge flying field, Mt. Clemens, were expected here today to drop food supplies by parachute to five fishermen trapped since Wednesday in two small ice-locked tugs on Lake Erie.

Three of the eight men originally caught on the tugs, late yesterday managed to work their way ashore over the broken ice flows which bar the Helen N. and the Indian from port.

On reaching here they reported provisions and fuel running low. Otherwise, they said their comrades were in no immediate danger. Efforts to batter a path through the ice to the two tugs will be made by the Goodrich Transportation Co., steamer Alabama which broke loose from the ice last night, after becoming fast while attempting to reach the fishermen.

The men who came to safety over the ice last night are Theodore Graham Jr., engineer of the Indian and Martin Jensen and Floyd Grover of the Helen N. The latter reported their craft had suffered a broken rudder.

London, Jan. 29.—The Prince of Wales, with his collar bone broken in yesterday's fourteenth riding mishap, passed a good night and was reported today to be progressing well.

MEN DON'T KNOW HOW TO DRESS

Ashtabula, O., Jan. 29.— Only twelve per cent of the men in the United States know how to dress correctly and only 85 per cent of them have a faint idea of the correct garb to wear, Tom Leslie, director of advertising display of the Wilson Brothers' Clothing Company of Chicago, told the United Press today.

"American women are the best dressed in the world and the men are the worst," he said.

"Parisian men are the best dressed," Leslie said.

KNIGHTS AND LADIES OF ST. JOHN PLAN TO REVIVE CRUSADES

London, Jan. 29—The Crusades will be revived this spring by the Order of the Hospital of St. John of Jerusalem.

One hundred Knights and Ladies of the ancient order, one of the two founded in Jerusalem during the crusades, have chartered a ship for a pilgrimage to some of its former strongholds in Jerusalem, Cyprus, Rhodes and Malta.

Neither King George V nor the Prince of Wales, both of whom belong to the Grand Priory of the Order, will be able to go, but the party will include some distinguished English names including the Countess of Cromer, the Dowager Countess of Airlie, Countess Haig, Lady Nunburnholme, Lady Margaret McRae, the Earl of Scarborough, Viscount Galway, Lord Lamington, Lord Treowen and Major General Sir Thomas Yarr.

The pilgrimage starts from Venice on March 7 in the Steamship Asia which will fly the tattered banner of the Order as ensign. Under an old British Admirality order which has never been repealed, all British ships are required to salute the flag of the order but unfortunately the International Signal-book has long ceased to include the banner of the order among the flags likely to be encountered at sea so that it is doubtful if many of the British vessels in the Mediterranean will recognize the ensign when they see it.

The order had its origin in Jerusalem and Acre, as an international lay con-fraternity for the relief of the Crusaders. Later on it was sovereign over Rhodes and Malta where its Knights kept galleys and galleons to attack the Barbary Corsairs and to prevent the spread of Turkish rule in the Mediterranean. This lasted until 1798.

Today, more prosaically but still historically true to its original aims, the Order controls and supports the St. John's Association Ambulance and Brigade in Jerusalem as well as the Ophthalmic Hospital there.

The English chapter includes Knights of Justice, Knights of Grace, and Esquires, as well as Ladies of Justice and Ladies of Grace. These distinctions, though officially recorded in the London Gazette, do not confer any rank or title, merely an opportunity for doing good.

The ribbon is small and black.

Old Folks Need a Mild Laxative —Not a "Physic"

Most men and women past fifty must give to the bowels some occasional help else they suffer from constipation. One might as well refuse to aid weak eyes with glasses as to neglect a gentle aid to weak bowels.

Is your present laxative, in whatever form, promoting natural bowel "regularity"—or must you purge and "physic" every day or two to avoid sick headache, dizziness, biliousness, colds, or sour, gassy stomach?

Dr. Caldwell's Syrup Pepsin helps to establish natural, regular bowel movement even for those chronically constipated. It never gripes, sickens or upsets the system. Besides, it is absolutely harmless and pleasant to take. Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.—Adv.

MISSIONARY MEETING HELD DESPITE INCLEMENT WEATHER

Deep snow and a zero atmosphere did not prevent members of the Women's Missionary Society, First U. P. Church from attending a meeting at the home of Mrs. S. M. Bailey, N. King St., Wednesday afternoon.

Mrs. E. C. Moorman presided over the gathering and Mrs. T. H. Bell conducted an impressive devotional service. After the regular business routine, Mrs. A. M. Patterson read a letter from a friend giving an account of the death of Mrs. T. J. Finney, at Assiut, Egypt, whose husband, a missionary there, is a graduate of Xenia Theological Seminary.

Program was conducted by Mrs. E. H. Carruthers, and consisted of letters received from different missions. Letters were from Dr. J. S. McCampbell in the Southland, Mrs. Janet Ballantyne White and her sister, Miss Agnes Ballantyne, Sialkat, India; Miss Helen Martin, Cairo, Egypt; and a unique account of a dinner given by the Prince Regent, Ras Tafra and Wayzero Mana, his wife, in the palace at Adda Ababa, Abyssinia, where a U. P. mission is located.

Program closed with a series of prayers for the "shut-ins" of the society, ending with a prayer by Mrs. Edwin Galloway. Social time was enjoyed, during which Mrs. J. P. Lytle introduced Mrs. J. P. White, Cedarville, editor, Woman's Missionary Magazine.

Several contests were enjoyed and prizes awarded. Mrs. Lawrence Manor, Mr. and Mrs. Lawrence Luttrell and Miss Edith Jackson were prize winners. Social committee served refreshments of punch and wafers.

Members present were: Mr. and Mrs. Earl Soward and son, Mr. and Mrs. Fred Peniwit, Mr. and Mrs. Robert McClelland and sons, Mr. and Mrs. Elmer Fawcett and daughter, Mr. and Mrs. Lawrence Manor, Mr. and Mrs. Lawrence Luttrell and daughter, Mr. and Mrs. Charles Toms and daughter, Mrs. Edna Graham and daughter, the Misses Edith Jackson and Ruth Burrell and Mr. Mondy Barnett.

Next month, the club will meet at the home of Mr. and Mrs. Robert McClellan, Van Eaton Road, when the meeting will be in charge of the men.

ENGAGEMENT ANNOUNCED AT EVENING PARTY THURSDAY

Engagement of Miss Mabel Esterline, Yellow Springs, and Mr. Fred King, Springfield, was announced at an evening party given by the Misses Ethel Miller and Ilo Long, at the home of the Misses Maud and Edith Miller, South Galloway St., Thursday evening.

The interesting announcement was made by Miss Helen Ford, who formed the first solution to a crossword puzzle containing Miss Esterline and Mr. King's names and the date of their marriage. Miss Ford was presented a prize for the puzzle contest and Miss Lemma Saunders won a prize in a heart contest. Mrs. Leroy Loe, Yellow Springs, before marriage Miss Prudence Pennington, was presented a silver cake plate.

Cards entertained the guests, including twenty girls, during the remainder of the evening. Appointments of pink and white were carried out in the refreshment course served.

LOCAL MISSION OFFICER ATTENDS RECENT SESSIONS

Mrs. George Street, E. Third St., attended the group meeting of the Woman's Home Missionary Society, Montgomery County, at West Carrollton, Thursday. She gave her talk, "The Missionary Sewing Basket," before the society.

The meeting was the last of the county group meetings in Dayton district, held during the last few weeks. Mrs. Street also attended the session of the executive board of the society of the West Ohio Conference in Dayton, Tuesday. A "check-up" of the work during the first half of the year was held and reports of district and conference officers showed progress.

ANTIOCH STUDENTS ATTEND DAYTON DANCE

Mr. Philip Bassett, Antioch College student, dressed in a "baby vamp" costume of blue brocade with broad yellow scarf, led the Virginia reel at the art students' costume ball in Dayton, Wednesday night.

Miss Mildred Hawxhurst, also of Antioch and Washington, D. C., participated in the dance, dressed as an East Indian girl. Miss Ruth Mangan, Greenville, another Antioch student, wore a Spanish costume.

Painted panels of foreign lands lined the walls for the ball which was elaborately staged by the art students. Following out the idea of a "re-incarnation party" each student was supposed to appear as the character in which it would best suit him or her to return to life. Many brilliant and effective costumes were worn.

Salesman For Face Cream Learns a Lesson

New York City. Mr. H. B. Menne writes:—"I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. I found it as impossible to sell skin creams as a bald headed man finds selling hair tonic. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking Carter's Little Liver Pills my skin took on a new healthful look." Druggists, 25 & 75c red packages.

SHADES OF WASHINGTON! WHO IS RIGHT?

Columbus, O., Jan. 29—Leaders of Columbus patriotic societies disagree with Rupert Hughes' characterization of George Washington as a "distiller of whiskey, a champion curser and a man who seldom prayed."

"Washington was an Episcopalian and we have prayers written by him," Archdeacon Joseph Dodshon, of the diocese of Southern Ohio, said. "We know that he prayed on the battlefield. He censured his soldiers for using profane language. He was a most religious man."

"In view of the fact that Washington came from a good family it is not likely that he was a profane man," Mrs. Orson Dudley Dryer, regent of the Columbus chapter of the Daughters of the American Revolution, said. "He may have had moments of justifiable wrath when his language was not calm, but on the whole I believe he was religious."

Cincinnati, O., Jan. 29—Neither Rupert Hughes, novelist and self appointed investigator of George Washington's private life, nor Robert L. Joyce of Hunter College, New York, who upholds "lying for one's country," is right.

This is the opinion of Dr. R. J. Condon, superintendent of Cincinnati Public schools, who strongly approves of criticism of Washington by the novelist, that he was a gambler, brewer, drinker, horse racer, liar, curser and dancer.

"It is best to accept the history of our great men as it has been handed down to us," Condon said. "Since to do otherwise cannot do any good and can do great harm in destroying faith in the high character of our American heroes."

MODISH MITZI—The Girls Are So Helpful! By JAY V. JAY

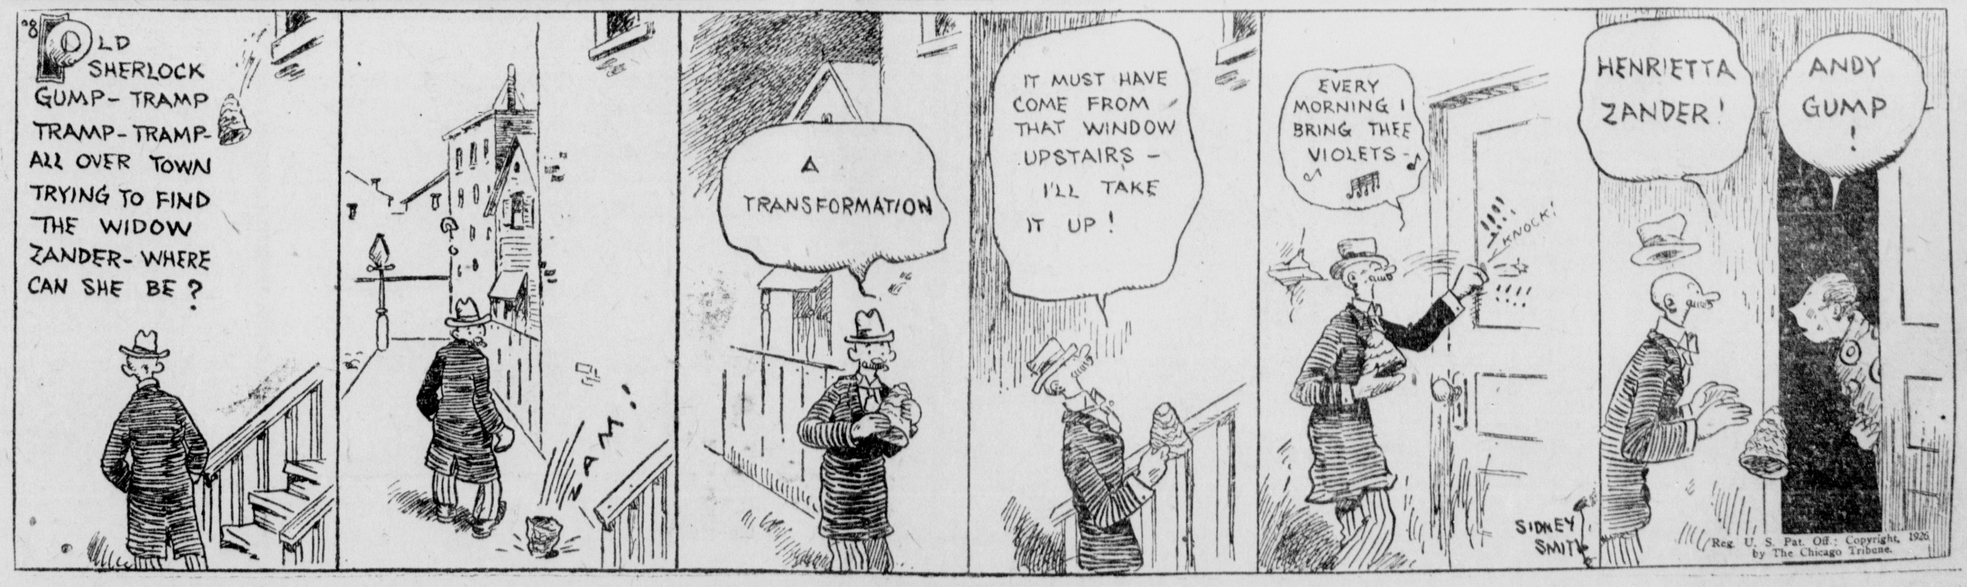

What with Aunt Sophia and Mitzi about to start hurrying Southward there are Things To Be Done. Aunt Sophia, being a good housekeeper, doesn't intend to leave them to anyone else. She will accept a little help from the girls, though, and that is why Polly is wearing a jolly long sleeved dress of cotton print under an apron that buttons on each shoulder and comes way to the bottom of her frock. Aunt Sophia is severely efficient in gingham check.

Adelaide is helping to put away the household effects dressed becomingly in a linen housedress which hardly shows—it is so obscured by the glory of an orange linen apron trimmed with applique flowers in blue and purple. Mitzi, herself, prefers cretonne but it is rubberized cretonne which will permit of washing all the best china before it is put away. Aunt Sophia is going to point that out when she sees, in a minute, or two, what's happening.

NO OVER-"POPULATION."

MANY times in recorded history the populations of countries have outgrown their boundaries and famine or territorial conquests have followed but the time is still to come when the whole world will be over-populated. What will happen is now troubling the minds of the political economists.

At those times in the past when nations overflowed their boundaries it was not merely coincidental that famines, plagues or wars occurred to deplete the population and relieve the situation. Famines followed because there was not sufficient food to feed the multitudes. Plagues swept whole continents because of the congested cities and inadequate housing facilities. Wars of invasion were declared for the annexation of land for colonization by the surplus population and to give immediate relief at home, by sending great armies of men beyond the domestic borders to fight that they might feed themselves from the grain stores of less prolific peoples.

What the political economists particularly fear is that civilization is depriving itself of its former quite efficient safety valves. Modern medicine and sanitation are eliminating disease epidemics in the most congested and the poorest living quarters. Plagues may no longer reduce inflated populations except in a few backward countries.

Famine might again come to the rescue if the world should become too small for its inhabitants, but so far ever-improving agricultural methods make it possible for the food production to keep pace with the population. Man is becoming too ingenious to allow himself to starve.

The war remedy may also be denied that future generation which is to experience the situation of an overcrowded Earth. Since the World War great effort has been put forth to establish perpetual world peace and that effort may some day be crowned with success. The people of the United States comprise one of those nations which do not believe in the inalienable right of one nation to invade another for the purpose of colonization by the surplus population of the conquering country. All man may eventually come to the same belief.

Professor Fairchild of the New York University suggests that man might breed for smaller size to reduce the consumption of food. Other forms of birth control, such as for the elimination of the sub-normal, have also been offered as solutions to this great problem of the distant future.

For the assurance of the present generation, however, let it be remembered that a relatively small part of the inhabitable portion of the earth is populated, that if need be many nations could live on their present waste and that science with its synthetic foods, substitutes for natural resources and other creations and inventions is already crossing the bridge.

HEALTH FOR ALL.

CAGED indoors the monkeys of the Philadelphia zoo for years fell victims to tuberculosis. The keepers tried in vain to raise to maturity the monkeys born in the zoo. Two years ago the monkey cages were moved out of doors, the little tree-climbers were given plenty of fresh air the year round, were fed garden greens and were provided with plenty of pure air. There has not been a death from tuberculosis in the monkey cages in two years and baby monkeys are daily delighting the little boy and girl visitors to the zoo.

The public cannot censure the zoo keepers for neglecting to try the "pure food, pure water and fresh air" cure on the monkeys, when there are millions of human beings neglecting to try the same proven preventative and cure on themselves.

There was a time in the congested cities when pure food, pure water and fresh air were not to be had for the mere taking. Then unprincipled merchants sold tainted and adulterated foods to the public; municipalities did not furnish pure water to their residents; inadequate sewerage, belching chimneys and unsanitary housing conditions contaminated and polluted the very air. The death roll annually from epidemics and the "white man's" plague will be recalled as appalling.

Today pure food laws and government meat inspections guarantee the nation the purest of edibles. Today national, state and municipal health departments are supplying pure water to every man, woman and child. Today government and industry are co-operating in purifying the very air. Smoke control is an established thing in most of the cities where inrustrial growth has filled the air with smoke and soot.

Not all human beings are so fortunately supplied with leisure time for a daily round of golf, an hour in the gymnasium or some other form of recreation and exercise, but there is enough pure food, pure water, pure air and good health for every American

Two chorus girls fought bitterly on a Geneva, Switzerland stage. Bystanders, separating them, found they were mother and daughter quarrelling over a place in the front row.

BRINING MEATS AT HOME

A Reader Friend has written to ask if it is possible to brine meats at home. Yes, indeed, and many women do it. Mutton is seldom cured and preserved, but the tougher cuts of beef (such as the plate, shoulder and chuck rump and cross-ribs) are satisfactorily home-cured, as well as the commonly cured ham, shoulder and bacon pieces from pork. The ham should be cut off at the hock joint, and the spare ribs taken out of bacon, and ragged edges trimmed smooth.

All formulas for the sugar-brine curing of meats are about the same, varying only a little in the proportion of salt, sugar and saltpeter. Scald the container well (either a stone crock or a hardwood barrel), then sprinkle a layer of salt over the bottom and over each layer of meat as you pack it in, skin-down. When full, cover the meats with boards and weight down with a stone so that all will be below the brine.

Proportions: For 100 pounds of meat allow eight pounds of salt, two pounds of brown sugar, and two ounces of saltpeter. Dissolve all in four gallons of water; this mixture should be boiled and then cooled, after which process is ready to be poured over the packed meat. Seven days after the brine is put on, the meat should be repacked in another container in reverse order (that is, the top meat put now at the bottom and the bottom at the top). The brine is poured over as before. This process is repeated on the fourteenth and twenty-first day, to insure an even cure to all the meat-pieces. Bacon should remain in brine from four to six weeks and hams from six to eight weeks, depending upon the size of the pieces. When cured, each piece should be scrubbed with tepid water and hung up to dry for several days before being smoked, no two pieces touching each other. For all curing use dairy salt, not table salt, as the latter contains starch to keep it dry and the starch may cause the meat to spoil. Many people do not smoke their cured meats, but use them direct from the brine. But smoking helps to preserve the meat.

Smoking: Hang meat in top of an inverted box or barrel over smoke from burning green hickory or any other hardwood inside the box on the ground. Start with a slow fire, and smoke 48 hours.

Just Folks

BY EDGAR A. GUEST

THE SANE DRIVER

They call me slow and poky and they say I take no chances
For I never race the signal at the busy thoroughfare.
And I never pass a corner without taking both-way glances,
I may sometimes lose a minute, but I've always that to spare.
And I never see a youngster with a hoop or ball or top
But I press the brakes a little and get ready for a stop.

They laugh about my driving and they call me an old lady
Just because I never hurry when a signal change I see,
But I've never paid a visit to Inspector Tom O'Grady
With a traffic violation slip some cop had handed me.
And night or day at street car lines I check my motor down
Because I think our city morgue's the coldest place in town.

I've never missed a railroad train because of careful driving
I've never hauled to hospitals the victims of my speed,
I'd rather by a little care make certain of arriving
Than flirt with death to try to save a minute I don't need.
I may be slow and poky, but my friends will all agree
No one will be a nervous wreck who takes a ride with me.

WRITTEN WORDS

The other day I came across the written words of a number of great and wise writers who had contributed to the literature and philosophy of the world.

The collection was in the form of a scrap book containing the original sheets from great books by Milton, Chaucer, Shakespeare, and others. And there were pages from the first English translation of the Bible.

It was most fascinating to read in the original sheets the thoughts of thinkers who lived hundreds of years ago.

I thought of the power of the written word and all that it implies.

When Lincoln wrote upon the back of an envelope the simple words of his heart, expressed in his Gettysburg speech, he little dreamed that they were to become immortal, even as great character is immortal.

Senator Ingalls of Kansas is remembered by but a few. And yet his poem called "Opportunity" has become a classic—even though its truth or teaching is questioned.

He who has, during a long life, seen little of the world and hidden himself alone that he might think and write, is a benefactor quite as much as he who has mixed in the crowd. How rich the world has become from its Emersons and Thoreaus!

But when you put to paper any thought, be very sure that it is YOU—the best of you.

It was Thoreau who said: "A written word is the choicest of relics."

XXX—ALONE IN A CROWD

THERE was hardly ever much to be done on Sunday. Everyone was either sleeping late from festivities of the night before or out on the beach enjoying the sunshine. Sally reported at the manager's office in the morning as usual, hoping that there would be some work to do but there was nothing and she was told that she need not come back until afternoon.

VIOLET DARE

She wandered about restlessly, sat at her desk and cleaned her typewriter which was already in perfect order—stacked the paper in neat piles in the drawer of her desk and wandered over to the window from which she loved to watch the glittering pageant below. It all looked different to her now. The women strutting by like peacocks brought back the bitter memory of the day when she too had been a part of fashion's parade. Her cheeks burned whenever she thought of it.

Idly she strolled over to the elevator and went up to her room. As she glanced from the cool-tinted walls to the dainty painted furniture she wondered how long it would be before Babette's prophesy would come true and she would have to give up these charming, comfortable surroundings for a little, bare room.

She had no right to be unhappy, she told herself, when everyone had been so good to her here at the hotel. Her work was easy, the surroundings were pleasant—only Tom had failed her and Tom was the only person in the whole wide world for whom she cared.

She put on a hat, surveying her reflection rather proudly. Why did Tom ignore her when everyone else seemed to find her attractive? She fluffed out her hair over her cheeks, heightened her color with a little rouge and wandered aimlessly over to the dresser and picked up some letter paper and pushed it in the pages of a book. She must answer Tom's letter. Time after time she had tried and always the words refused to come, for her pride was so hurt that she could not tell him the things she wanted to. And she could not write to him as he had to her, casually, as though their whole little world did not lay in ruins.

Suddenly the telephone rang, and hoping that it was someone who wanted her to take some dictation she rushed to answer it. But Elliot Dane's voice spoke to her.

"Miss Lee is not in," she said, trying to disguise her voice. "This is the maid speaking."

"You can't fool me," his voice came back jovially. "Oh Sally haven't you forgiven me?"

"Miss Lee isn't in," Sally insisted stubbornly.

"Oh, isn't she? Well, I'm right downstairs and I'm coming up to find her."

The 'phone clicked as he hung up and Sally looked around desperately for a moment wondering how she could escape. Clutching her book under her arm she rushed to the door and down the hall.

"Take me down, please," she asked, as she found a waiter just going in the Service elevator. "I don't want to go to the other elevator. Oh hurry, please."

"Oh very well, Miss, but as long as they let you use the other one I thought you'd rather."

When she reached the lobby she looked nervously about and then hurried out the nearest door. She must go somewhere where Elliot Dane couldn't find her. In her heart she blamed him for much of her unhappiness, for he always came with his beguiling attentions when she was most lonely.

Out on the beach she found a sheltered corner near one of the piers where she sat, her book open on her lap, trying to write a letter to Tom. But she was choked, inarticulate, when she tried to write to him.

Suddenly an idea seized her. She figured up how much money she had. She could get along without any new clothes, she decided. She would take the money she had saved toward paying back Mr. Stone, drive away her own loneliness, and give Emily and Jack a holiday.

Sally sat alone on the beach trying to write a letter.

Feverishly she wrote a letter inviting them to come and stay two days with her. She simply must see their darling baby, she wrote, and there was no other way as she was too busy to go back to New York until the hotel had no further need for her services. If she couldn't have Tom at least she could have the people who were dearest to him, and perhaps through seeing them she could find some way out of her difficulties. She would squander every cent she had on them, give Emily a glorious two days of rest that she must need terribly.

When the letter was finished she forgot her fears of Elliot Dane, forgot her loneliness, and thought only of her plans for entertaining them. Hurrying back to the hotel she timorously asked the clerk about rates for the rooms—she would have her party in style and put her guests up at the best hotel. Learning that he could make her a special rate she fairly danced as she went to her desk.

COLORED TOSSERS ORGANIZE TO MEET ATHENIANS MONDAY

Newly organized Xenia Buckeye Big "5" colored basketball team, will engage in its first game of the season Monday night meeting the famous Baltimore, Md., Athenians at Central High School gym.

Local management is negotiating for DeHart Hubbard, Cincinnati negro track star, and holder of several world sprint records, to appear in the Xenia lineup in the contest. Hubbard is playing independent basketball in Cincinnati and his appearance should be an attraction. His brother, another famous athlete, may also appear in the lineup.

Local team will be composed of such stars as Joe and Rock Anderson, possibly the Hubbard brothers and Rankin Heath.

The Athenians lost a close game to the champion Wilberforce College quintet recently but are said to be one of the leading independent organizations in the country. Included in the Baltimore lineup will be Poles, Baskerville, Keller, Veney and Wheatley.

Springfield Aces will play East High School Alumni stars in a preliminary. Games start at 8 o'clock. Tickets for the game may be obtained at Hayward's cigar store, Watkin's barber shop or Rountree's billiard parlor. Reserve seats will cost 75 cents and general admission tickets 50 cents.

YELLOW SPRINGS DEFEATS ALUMNI

Making up in team play what edge their opponents may have had in individual brilliance, Yellow Springs High School basketeers defeated the Alumni by the narrow margin of 30 to 28 Wednesday night at Yellow Springs.

Lack of practice made itself felt in the grads' game and the high school succeeded in pulling out a hard-earned victory. Gegner sparkled for the high school with seven baskets with Stewart for the Alumni scoring fifteen points.

Lineup and summary:

Yellow Springs (30)		Alumni (28)
Gegner	RF	Hugnes

FORMER VETERANS' BUREAU HEAD FINED

Chicago, Jan. 29—Attorneys for Charles R. Forbes, former head of the Veterans Bureau and John W. Thompson, St. Louis contractor will go to the U. S. supreme court in an effort to reverse the jail sentence and fine imposed on the two alleged conspirators today. This announcement was made today following the refusal of the federal circuit court here to grant Forbes and Thompson a rehearing.

Forbes and Thompson were sentenced to two years in prison and fined $10,000. They were found guilty of a charge of conspiracy to defraud the government in connection with hospital contracts.

BOILER BLAST IN THEATER KILLS ONE

Cleveland, Jan. 29—A near panic occurred in a district motion picture theatre here last night when a boiler in the basement exploded, killing Paul Lazare, theatre manager.

Lazare was standing in the lobby near a door leading to the basement when the blast occurred. He had just closed the door after attending the furnace.

The force of the explosion hurled the door against Lazare, fracturing his skull. He died an hour later.

Steam poured into the theater and panic stricken patrons ran for the exits. The crowd was soon calmed, however.

LEARNS OF DEATH

Mrs. George Bickett, Yellow Springs, formerly of this city, has received word of the death of her son-in-law, W. J. Chapman, Galveston, Tex., which occurred Thursday night from heart trouble.

Mr. Chapman's widow was before marriage Miss Agnes Bickett, who was for several years a teacher in the Xenia Public Schools. Besides his widow, Mr. Chapman leaves four children, two by a former marriage.

He was engaged in the fish hatchery business in Galveston. Funeral services and burial will take place in that city.

New Giant Southern Broadcasting Station Now in Use

One of the most powerful radio stations in the south, WIOD (Wonderful Isle of Dreams) is now broadcasting daily from Nautilus Island, Miami Beach, Fla. The wave length is 248 meters or 1210 killocycles and the power, 1,000 watts. Almost a dozen hotels are connected with the island station by remote control, and a novel switchboard arrangement dispenses with long waits enabling the operator to put a program from any of the hotels "on the air" without a moment's delay. The broadcasting towers, looming 250 feet in the air, are said to be the largest privately owned towers, for broadcasting only, in the United States. Above is a glimpse of the station which entertains from 8:30 until 9:30 o'clock with a wait of an hour, then a program which lasts until midnight.

Harry C. Moir, owner, declares the whole affair is "a climax of conspiracies, entrapments and briberies," and is preparing to fight the case. E. C. Yellowley (inset), is enforcement director in Chicago.

The Only Pure Milk

Is Milk That Has Been

PASTEURIZED

Raw milk, in spite of the most careful handling, is not free from germs. This has been fully demonstrated by the most careful scientific tests. Proper pasteurization of milk destroys any pathogenic organisms which might be present in raw milk and these bacteria cause tuberculosis, typhoid, scarlet fever and diphtheria. On the other hand pasteurization does not destroy the natural healthful organisms in the milk nor does it mar its fresh, sweet flavor.

Since milk is absolutely essential to the physical development of children and the health of adults it is imperative that safe milk be available at all times.

OUR MILK IS 100 PERCENT PURE AND IS ABSOLUTELY SAFE.

PILL-SLAVE FREED FROM CONSTIPATION

Kellogg's ALL-BRAN brought natural relief in a few weeks

A remarkable, convincing tribute is paid Kellogg's ALL-BRAN in this letter from Mr. F. C. Aminsen, of Seattle:

"I suffered with chronic constipation for many years and was compelled to use pills every night, but since I got your Kellogg's ALL-BRAN it works fine. I would not be without it. I was so deathly sick of taking pills every night. Now it is so different. Kellogg's ALL-BRAN works so naturally and is pleasant to take."

F. C. AMINSEN,
Kennyhole, Seattle, Washington.

You can get permanent relief from constipation with Kellogg's ALL-BRAN if eaten regularly. Two tablespoonfuls daily—or in chronic cases, with every meal. Doctors recommend it because it is ALL BRAN. It does a job only ALL-BRAN can do. Part-bran products may not do any good at all.

Eat Kellogg's ALL-BRAN with milk or cream. Use it in cooking. Try the recipes given on the package. Kellogg's ALL-BRAN is made by Kellogg in Battle Creek, Michigan. Served by the leading hotels and restaurants. Sold by grocers.

Miss Elinor Stafford Millar, who is to fill an engagement at First M. E. Church, Xenia, from January 31 to February 14, comes from the Extension Department, Moody Bible Institute, Chicago, and is said to be an exceptional inspirational speaker.

Her work has taken her around the

world twice and across the Pacific ocean nine times. She visited many European countries, which has brought her into touch with all types of humanity from royalty to the slums.

During the time of Miss Millar's first trip from Australia to Europe, she was a delegate to the first conference of the Y. W. C. A., held in London. While there she was invited to visit Ireland, Scotland and France, where she spoke before large audiences, and was received at Windsor Castle by Princess Christine on behalf of Queen Victoria, who was ill at the time. She was also a guest at Mansion House, London, and took part in a great function at Southhampton, as a guest of the Hon. Mrs. Eliot Yorks, daughter of Baron Rothschild; was received in Edinboro, by the Lord Provost and was a guest for three months in the home of Robert Stuart, protector fiscal of Midlothian, who was a devout Christian and one of the first citizens of Edinboro.

Trinity and First M. E. Churches will combine in the special meetings, which Miss Millar will conduct in the First Church beginning Sunday morning and continuing two weeks. Except Saturday night, services will be held each night at 7:30. The public is invited.

A large chorus choir, under the direction of R. A. Stillings, will lead the singing.

COMMISSIONS ASKS FINNEY TO OBTAIN CODIFYING COSTS

Re-codification of all city ordinances now in existence with subsequent repealing of many of the obsolete regulations which are not now enforced, was again informally discussed by City Commission although no action was taken at the regular meeting on Thursday night.

Commissioners generally expressed themselves in favor of the proposal if the expense of the project is not too great. City Solicitor J. A. Finney is expected to present an estimate of the expense involved at the next regular meeting.

The city's ordinances have not been recodified for fifteen years, the city solicitor pointed out. It had heretofore been the practice to make the re-codification every ten years, he said.

Presentation of his annual financial statement for 1925 by City Auditor T. H. Zell was the only other feature of the meeting. After complimenting commissioners for the healthy financial condition of the city despite the handicap of a low tax rate, Auditor Zell was in turn commended by commissioners for the fine showing of the city waterworks plant under his supervision in 1925.

Charles Kelble, newly appointed commissioner to take the place of Harry Sparks, resigned, was presented with a large bouquet of flowers by friends and admirers in the city at the meeting.

No Car of Recent Years Has Aroused Such Interest

There is no parallel in our entire experience—or in all the 17 years of Paige and Jewett success—to the keen and universal interest shown in The New-Day Jewett Six!

Already this car has been viewed by a greater number, we believe, than have attended the introductory showing of any automobile. Throughout the country, many thousands purchased New-Day Jewetts during the first two weeks—more actual sales, we believe, than have ever been made in a like period on a new car.

Such interest is natural, for The New-Day Jewett is a most unusual new car. It is truly a new-day automobile—designed for today's motoring needs and admirably fitted to meet them.

To gain full appreciation of the remarkable results fine Paige engineering has attained in new-day driving ease and brilliant performance, you must not only see this beautiful Jewett, but ride in and drive it. If you have not yet been able to do this, delay no longer!

I Wonder If This Is Why?

China has some 420,000,000 folks milling around in it!

The United States claims 110,000,000.

There are 460 Drug Stores in China!

There are FIFTY THOUSAND (50,000) druggists in the United States.

Could THIS be the reason that China is so backward in progress and so torn with political wars and emotional twists?

Is the drug store a civilizer or do drug stores FOLLOW civilization?

WE Americans when we develop a pain or a misery or a corn or such, lope into the nearest drug store, lay down a dime or a two bit piece and quit hurting. Do you suppose if we COULDN'T do that, we'd get militant and start a war or a revolution? Are Earaches, Toothaches, Constipations and Sore Corns the underlying reasons for War and National BACKWARDNESS?

There's SOMETHING ODD about this situation but darned if I can figger it out so as to PROVE ANYTHING!

What do YOU dope out on it?

DOC. SAYRE.

Mrs. Eurlia B. Chamois, head of the Tobacco Prohibition Dept. has been receiving reports of illegal tobacco growing from her agents in Kentucky. Last week 15 Tobacco Prohibition operators swooped down on Silas Abernethe in Cass County and after surrounding the house took Silas a prisoner. He confessed after one of the operators found two tobacco stalks growing in flower pots in the woodshed of the Abernethe home. Mrs. Chamois is to be congratulated on her thoroughness. Ain't it grand to lean up against our Tobacco Counter. LEGALLY!

Is your appetite gone?

REMEMBER, how it used to be when you could hardly wait for mealtime? And then, sit down and eat several helpings of everything—enjoy every morsel and get up from the table feeling satisfied with the World, happy with everybody and ready for anything?

But what a difference in living when even the sight and smell of food sickens you! Never hungry—no matter how tempting the food is—nothing tasting right. And then, after nibbling at a few bites, feeling worse than ever.

Oh, life is hardly worth living this way. And yet, all in the World the matter with you is that you are starving for rich, red blood. And it is acknowledged everywhere that S. S. S. helps Nature build these healthy red-blood-cells by the millions!

All you need to do to get back that wonderful appetite is to build rich, red-blood-cells with S. S. S. It's simple. Just try it, like thousands are doing every day. See for yourself what S. S. S. will do.

S.S.S.

S. S. S. means blood with a punch—brimful of new life and energy. Get your S. S. S. at any good druggist. The larger size is more economical.

GEOGRAPHY EXAMINATION ON FLORIDA

1. Where is Florida? ANS.—You've asked about something too deep for me. It is laying under the water down south some place. It is impossible to say how large it is because they are adding miles of ocean and lake bottom to it every day.

2. What do they raise most in Florida? ANS.—Well, mostly they raise the price of real estate. It grows in the night. The largest city in Florida is usually Miami but that all depends where the most real estate agents are gathered.

3. What is the principal song in Florida? ANS.— The principal song is "How Dry I Am." Drinking water there is about as hard to get as drinking whiskey is here.

4. Tell all you can of the fish found in Florida. ANS.—Mostly "poor fish" are found. Then, too, the suckers are abundant. There are some crabs, cats and some big fish in the swim.

5. What are the principal imports? ANS.—The principal imports are real estate speculators. The principal exports are the same gentlemen riding freight trains, walking, bumming rides and traveling in Packards.

6. Tell what you can of the farm lands in Florida. ANS.—I can tell nothing of the farm lands in Florida. As I get it, they are nearly all under water, and corn and wheat is planted by experienced divers who are sent down under the water with them.

7. What is there between Texas and Florida? ANS.—I understand there is quite a gulf between the two, but what the trouble is I don't know. It may be, because Texas always laid claim to being the largest state in the Union, but now since Florida is annexing the sea bottom, the Texans are afraid Florida will take the honor away from them.

ASK MAIL PATRONS TO SHOVEL SNOW

Because of the additional burden placed on rural mail carriers by the recent heavy snows, Postmaster C. S. Frazer requests that patrons of the Xenia Post Office living on rural mail routes comply with regulations requiring that approaches to mail boxes be cleared of snow.

Rural mail carriers claim heavy snow drifts have rendered the approaches to a majority of the boxes over the county almost impassible. They say it is extremely difficult to reach the boxes without leaving their conveyance.

For the accommodation of the carriers, the postmaster asks that this regulation be complied with promptly.

EX-BROKERS BUSY IN PENITENTIARY

Columbus, O., Jan. 29.—George Beazell and William H. Chatfield, former Cincinnati brokers, serving sentences of nine years each in Ohio Penitentiary for embezzlement, are leading active lives.

Each day finds the two in the penitentiary library, supplying books to other prisoners and keeping in order the hundreds of volumes and periodicals.

In the evenings they aid in the revival meetings in progress now. Both Beazell and Chatfield have been active in song leading at the services conducted in the penitentiary chapel.

"I believe the services are a great benefit to the prisoners," Beazell declared. "Some of them, hardened criminals, come forward at the meetings visibly affected and make resolutions for a better life."

Your next Car should be a BUICK

For Comfort's Sake

The Better Buick offers every ordinary motoring comfort, and many that are exclusively Buick: Easier starting—a new, *high-speed* starting motor does it. Smooth running from the go—Automatic Heat Control is an exclusive Buick feature. Easier steering—Buick's 5-control-surface steering gear is the most expensive and most efficient type today.

For Safety's Sake

Buick surrounds you with every ordinary protection, and then adds Buick protection: Buick *dependability*, which takes you and brings you back, on time, all the time. Buick *mechanical* 4-wheel brakes, with no liquid in them to expand, contract or leak away. And Buick Controllable Beam Headlights, with steering wheel control, which make night driving a pleasure.

For Economy's Sake

No other car has the "Sealed Chassis" and the "Triple Sealed Engine." The "Sealed Chassis" lowers operating costs by enclosing every operating part inside a dirt-proof, oil-tight housing, while "Triple Seals" close every engine point of entry to dirt and the wear dirt causes.

For Value's Sake

At present prices, Buick with all of its added comfort, safety, and economy, is easily the greatest automobile value in the world.

If you want finer transportation at lower cost, come in and see the Better Buick!

PIQUA STORE OWNED BY XENIAN DAMAGED BY TUESDAY BLAZE

Damage estimated at approximately $10,000 was caused by fire in the New York Sample Store, Piqua, owned by Jacob Colp, Xenia, Tuesday evening, the owner declared upon his return from Piqua.

Mr. Colp is proprietor of The Sample Store, S. Detroit St., this city, and established the store at Piqua a year ago. Loss is mostly in stock, entirely covered by insurance.

The New York Sample Store building in Piqua as well as an adjoining building which also suffered from the blaze, are owned by Charles H. May, who is sojourning in Florida.

Firemen responding to the alarm at 6:40 p.m., found the rear end of the store a mass of flames. It had gained considerable headway before firemen arrived.

Firemen battled the blaze for an hour before getting it under control. The sky-light of the store was broken, paint on the woodwork blistered and glass on the front door cracked from the intense heart, Mr. Colp said. The Xenia owner was called to Piqua when the fire broke out.

Blaze was discovered by Samuel Sever, manager of the store, who found rags had caught fire from a gas heater. He was painfully burned in attempting to extinguish them and the fire got beyond his control.

MRS. HARRIET BROWN SUMMONED BY DEATH

Mrs. Harriet Brown, Jamestown, widow of John C. Brown, died of infirmities of age late Thursday.

Mrs. Brown was born in Xenia, the daughter of Andrew and Hester Ann McCarty. She lived in Xenia until her marriage to John C. Brown. For seven years, she was a teacher in the public schools of Xenia. Her married life of more than fifty years was spent in Jamestown, where she was a member of the United Presbyterian Church.

No children were born to Mr. and Mrs. Brown, but nephews and nieces spent much time in the Brown home. Miss Katherine Hazlett a grand niece, now of New York, made her home with them for many years.

Mrs. Brown is survived by two brothers and one sister, A. M. McCarty and J. H. McCarty and Mrs. James M. Cooper, all of this city. The Misses Harriet and Bertha McCarty, Mrs. Robert Hudson, Fremont and Mrs. Carl Arnold, Dayton, are nieces.

Funeral arrangements have not been made.

ELIJAH LINEBAUGH ANSWERS SUMMONS

Elijah Linebaugh, 70, prominent farmer, died at his home in Byron, Trebein and Fairfield Road, Thursday afternoon. He was widely known throughout the county.

He is survived by his widow, three sons, John, Arthur and Edwin, Dayton, O.; and three daughters, Mrs. George Warner and Mrs. Chester Harner, Osborn, and Mrs. William Stewart, of near Byron.

Funeral services will be held at the residence Monday afternoon at 1:30 o'clock, and at Byron Church at 2 o'clock. Burial will be made in Byron Cemetery.

GRADE CROSSINGS BEING ELIMINATED

Cleveland, O., Jan. 29.—Elimination of all grade crossings on the Pennsylvania railroad in Cleveland will be completed this year, City Manager Hopkins has announced.

"The city has concentrated its funds on the Pennsylvania grade cross ings. With the completion of that work there will be sufficient funds to carry out an extensive elimination program on other lines," Hopkins said.

The cost of grade eliminations is split between the city and the railroad. The city bears 35 per cent of the cost and the railroad 65 per cent.

FREED OF CHARGE

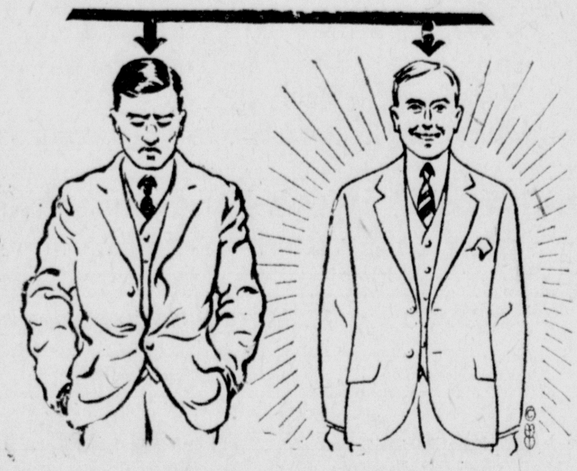

Wilmington, Jan. 29.—Charges of uttering a check without funds in the bank against Harry Hopkins, Jamestown, insurance agent, were dismissed by Mayor E. P. West when he arranged to refund the money and The Clinton County National Bank and Trust Co., agreed to drop prosecution. Hopkins is said to have written a check for $35 on a Jamestown bank which he gave his brother, Elijah Hopkins, New Antioch.

This tragedy of history proves how truly you need a clear soap

At a brilliant pageant, directed by the famous Leonardo de Vinci, a young boy was gilded from head to foot. It caused his death—because his pores were clogged.

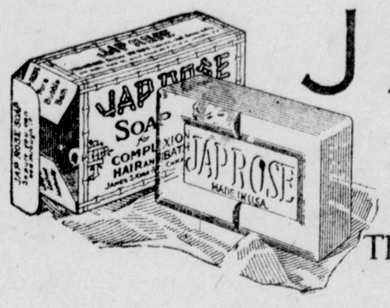

This shows how important to both health and beauty it is to use a soap that thoroughly cleanses pores to their very ends without clogging them.

The one soap that does this best, beauty specialists say, is dainty Jap Rose.

Unlike thick, coarse soaps which clog pores, Jap Rose is so fine, so pure that it dissolves completely in water and hence can enter, cleanse and stimulate the 5 miles of tiny pores in your body.

You can tell it is doing this by the pleasant temporary tingle that follows its first use.
